Additional time is needed for the Company to complete its financial closing process to produce a complete and accurate quarterly report. As a result of the foregoing, additional information is necessary to be provided to the Company's independent registered accounting firm in order to complete their review procedures over interim financial information. The Company anticipates it will file its Form 10-Q for the period ending June 30, 2024, on or before August 19, 2024.

Based on currently available information, in connection with filing its Form 10-Q, the Company expects to report that its disclosure controls and procedures were not effective for the period covered by the report due to the existence of material weaknesses in the effectiveness of its internal control over financial reporting that remain unremediated as of June 30, 2024. The material weaknesses have not resulted in any material misstatements or omissions in previously reported financial statements and the Company does not expect such material weaknesses will impact the financial information to be reported in the Form 10-Q.
