ATLANTA – May 15, 2025 – Bitcoin Depot Inc. (Nasdaq: BTM) ("Bitcoin Depot" or the "Company"), a U.S.-based Bitcoin ATM operator and leading fintech company, today reported financial results for the first quarter ended March 31, 2025. Bitcoin Depot will host a conference call and webcast at 10:00 a.m. ET today. An earnings presentation and link to the webcast will be made available at ir.bitcoindepot.com.

"Bitcoin Depot delivered a remarkable first quarter, with 19% year-over-year revenue growth and a more than threefold increase in Adjusted EBITDA to \$20 million," said Brandon Mintz, Founder and CEO of Bitcoin Depot. "This performance demonstrates the strength of our operating model, the success of our kiosk optimization strategy, and the powerful cash flow we can generate once fixed costs are covered. In fact, with the cash generated in Q1, we strengthened our balance sheet by increasing our bitcoin holdings and building our cash balance, positioning us for continued growth and flexibility. Looking ahead, we remain focused on scaling responsibly, both domestically and internationally, while delivering sustained value to both our customers and shareholders."

First Quarter 2025 Financial Results

Revenue in the first quarter of 2025 increased 19% to \$164.2 million compared to \$138.5 million in the first quarter of 2024. This increase was driven by increased kiosk deployment and higher median transaction size.

Total operating expenses declined 7% to \$15.3 million for the first quarter of 2025 compared to \$16.6 million for the first quarter of 2024 due to lower depreciation expense and insurance costs as the Company continues to optimize its cost structure as a steady-state public company.

Net income for the first quarter of 2025 increased significantly to \$12.2 million, compared to a net loss of \$4.2 million for the first quarter of 2024. Net income attributable to common shareholders increased to \$4.2 million, or \$0.20 per share, from a net loss of \$1.5 million, or (\$0.25) per share, in last year's first quarter. The increase was due to higher revenue and gross profit in 2025.

Adjusted gross profit, a non-GAAP measure, in the first quarter of 2025 increased 92% to \$33.1 million from \$17.3 million for the first quarter of 2024. Adjusted gross profit margin, a non-GAAP measure, in the first quarter of 2025 increased approximately 770 basis points to 20.2% compared to 12.5% in the first quarter of 2024. Please see "Explanation and Reconciliation of Non-GAAP Financial Measures" below.

Adjusted EBITDA, a non-GAAP measure, in the first quarter of 2025 increased 315% to \$20.3 million compared to \$4.9 million for the first quarter of 2024. The increase was primarily due to the higher revenue and gross profit. Please see "Explanation and Reconciliation of Non-GAAP Financial Measures" below.

Cash, cash equivalents, and cryptocurrencies as of March 31, 2025, were \$43.3 million compared to \$31.0 million at the end of 2024. The company used \$7.8 million in the first quarter of 2025 to acquire 83 more Bitcoin, bringing the total held for investment to 94.35 BTC.

Net cash flows provided by operations in the first quarter of 2025 were up significantly to \$16.3 million compared to \$1.3 million in the first quarter of 2024.

Outlook

The Company expects revenue in the second quarter of 2025 to grow low-to-mid-single digits on a percentage basis from the second quarter of 2024.

Explanation and Reconciliation of Non-GAAP Financial Measures

Bitcoin Depot reports its financial results in accordance with accounting principles generally accepted in the United States of America ("GAAP"). This press release includes both historical and projected Adjusted EBITDA, Adjusted Gross Profit, and certain ratios and other metrics derived therefrom such as Adjusted EBITDA margin and Adjusted Gross Profit margin, which are not prepared in accordance with GAAP.

Bitcoin Depot defines Adjusted EBITDA as net income before interest expense, income tax expense, depreciation and amortization, non-recurring expenses, share-based compensation, expenses related to the PIPE financing and miscellaneous cost adjustments. Such items are excluded from Adjusted EBITDA because these items are non-cash in nature, or because the amount and timing of these items is unpredictable, not driven by core results of operations and renders comparisons with prior periods and competitors less meaningful. In addition, Bitcoin Depot defines Adjusted Gross Profit (a non-GAAP financial measure) as revenue less cost of revenue (excluding depreciation and amortization) and depreciation adjusted to add back depreciation and amortization. Bitcoin Depot believes Adjusted EBITDA and Adjusted Gross Profit each provide useful information to investors and others in understanding and evaluating Bitcoin Depot's results of operations, as well as provide a useful measure for period-to-period comparisons of Bitcoin Depot's business performance. Adjusted EBITDA and Adjusted Gross Profit are each key measurements used internally by management to make operating decisions, including those related to operating expenses, evaluate performance and perform strategic and financial planning. However, you should be aware that Adjusted EBITDA and Adjusted Gross Profit are not measures of financial performance calculated in accordance with GAAP and may exclude items that are significant in understanding and assessing Bitcoin Depot's financial results, and further, that Bitcoin Depot may incur future expenses similar to those excluded when calculating these measures. Bitcoin Depot primarily relies on GAAP results and uses both Adjusted EBITDA and Adjusted Gross Profit on a supplemental basis. Neither Adjusted Gross Profit should be considered in isolation from, or as an alternative to, net income, cash flows from operations or other measures of profitability, liquidity or performance under GAAP and may not be indicative of Bitco

Due to the high variability and difficulty in making accurate forecasts and projections of some of the information excluded from the projections of Adjusted EBITDA, together with some of the excluded information not being ascertainable or accessible, Bitcoin Depot is unable to quantify certain amounts that would be required to be included in the most directly comparable GAAP financial measures without unreasonable effort. Consequently, no disclosure of estimated comparable GAAP measures is included and no reconciliation of the forward-looking non-GAAP financial measures is included.
