

UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549

FORM 10-Q

(Mark One)

☒ QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended September 30, 2025

OR

☐ TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission File Number: 001-41305

Bitcoin Depot Inc.

(Exact name of registrant as specified in its charter)

Delaware
(State or other jurisdiction of
incorporation or organization)

2870 Peachtree Road NE, Suite 327
Atlanta, GA

(Address of principal executive offices)

87-3219029
(IRS Employer
Identification No.)

30305
(Zip Code)

(687) 435-9604

(Registrant's telephone number, including area code)

Not applicable

(Former name, former address and former fiscal year, if changed since last report)

Securities registered pursuant to Section 12(b) of the Act:

Title of each class	Trading Symbol(s)	Name of each exchange on which registered
Class A common stock, par value \$0.0001 per share Warrants, each whole warrant exercisable for one share of Class A common stock at an exercise price of \$11.50 per share	BTM BTMWW	The NASDAQ Stock Market LLC The NASDAQ Stock Market LLC

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes ☒ No ☐

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§ 232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). Yes ☒ No ☐

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

- ☐ Large accelerated filer
☒ Non-accelerated filer

- ☐ Accelerated filer
☒ Smaller reporting company
☒ Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act. ☐

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes ☐ No ☒

As of November 11, 2025, the registrant had 35,010,936 shares outstanding of Class A common stock, par value \$0.0001 per share, and 37,846,102 shares outstanding of Class M common stock, par value \$0.0001 per share.

Forward-Looking Statements

Our disclosure and analysis in this report concerning our operations, cash flows and financial position, including, in particular, the likelihood of our success in developing and expanding our business and the realization of sales from our backlog, include forward-looking statements. Statements that are predictive in nature, that depend upon or refer to future events or conditions, or that include words such as “expects,” “anticipates,” “intends,” “plans,” “believes,” “estimates” and similar expressions are forward-looking statements. Although these statements are based upon reasonable assumptions, they are subject to risks and uncertainties that are described more fully herein and in our Annual Report on Form 10-K for the year ended December 31, 2024, in Part I, Item 1A, “Risk Factors” and in Part I under the heading “Cautionary Notice Regarding Forward-Looking Statements”, as well as in our other filings with the Securities and Exchange Commission. These risks include our ability to successfully realize the expected benefits of the business combination; our ability to operate in existing markets or expand into new jurisdictions; our ability to manage our growth effectively; litigation or investigations involving us, our agents or other contractual counterparties, or related to our operations and/or strategic transactions; our ability to continue to operate in states where we have obtained the requisite licenses to the extent that the laws and regulations of such states clearly indicate that a license is required or where state regulators have advised us that we need a license to operate; our ability to manage regulatory uncertainty in the cryptocurrency industry and maintain positive relationships with federal and state regulators; increasing legislation and regulation by state governments related to the operation of Bitcoin ATMs; our products and services may be negatively characterized by consumer advocacy groups, the media or certain federal, state and local government officials; our dependence on key business relationships with certain key suppliers of Bitcoin; our dependence on, and ability to maintain, key business relationships with store locations for our kiosks and franchise locations, and related supplies, programs, and technologies for our business on acceptable terms; the negative impact on our future results of operations of the unknown potential growth rate and demand for Bitcoin kiosks and by the slow adoption of cryptocurrency; our heavy dependency on our ability to win, maintain and renew contracts with store location partners; unfavorable macroeconomic conditions or decreased discretionary spending due to other factors such as increased interest rates, increased inflation, high fuel rates, recessions, epidemics or other public health issues, terrorist activity or threat thereof, civil unrest or other economic or political uncertainties, that could adversely affect our business, results of operations, cash flows and financial conditions; and our ability to obtain debt financing or refinance existing indebtedness on satisfactory terms, liquidity and trading of our public securities. Accordingly, we can give no assurance that we will achieve the results anticipated or implied by our forward-looking statements. We undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events, or otherwise, except as required by law.

CONSOLIDATED STATEMENTS OF CASH FLOWS
(UNAUDITED)
(in thousands, except share and per share amounts)

	Nine Months Ended September 30,	
	2025	2024
Supplemental disclosures of cash flow information:		
Cash paid during the nine months ended September 30 for:		
Interest	\$ 8,955	\$ 6,921
Income taxes	\$ 9,295	\$ 3,652

Supplemental disclosures of non-cash investing and financing activities:

See Note 2 for information on non-cash exchange of Class V for Class M shares and write-off of the tax receivable agreement related to the Up-C Restructuring.

See Note 5 for information on non-cash distribution to the Member.

See Note 13 for information on non-cash financing activity related to term loan agreements.

On March 26, 2024, the Company amended its term loan agreement with its lender. The total principal on the old term loan of \$19.9 million was extinguished and the new term loan's principal balance with the same lender is \$35.6 million. The net proceeds from the issuance is recorded as an inflow from financing activities of \$15.2 million, net of fees paid of \$0.5 million.

See Note 18 for information on non-cash activity related to a lease termination and new lease arrangements.

The accompanying notes are an integral part of these unaudited consolidated financial statements.

BITCOIN DEPOT INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(UNAUDITED)

(1) Organization and Background

(a) Organization

Lux Vending, LLC (dba Bitcoin Depot) ("Legacy Bitcoin Depot") was formed on June 7, 2016. Pursuant to a transaction with GSR II Meteora Acquisition Corp. ("GSRM"), a Delaware corporation formed on October 14, 2021, Legacy Bitcoin Depot merged with and into GSRM and GSRM was renamed Bitcoin Depot Inc. ("Bitcoin Depot", or the "Company") (see Note 2(a)). Bitcoin Depot owns and operates the largest network of Bitcoin ATMs ("BTMs" or "BTM kiosks") in North America where customers can buy and sell cryptocurrencies. The Company also maintains a leading position in the BTM market in Canada and Australia. In addition to its BTM network, Bitcoin Depot also sells cryptocurrency to consumers at a network of retail locations through its BDCheckout product offering and through its website. The BDCheckout offering allows users similar functionality to the BTM kiosks, enabling users to load cash into their accounts at the checkout counter at retail locations, and use those funds to purchase cryptocurrency. The Company's website allows users to purchase cryptocurrency online for which the Company earns a commission. Bitcoin Depot also offers a software solution to other BTM operators through its controlled subsidiary, BitAccess Inc. ("BitAccess").

(b) Background

Several factors affect the price of cryptocurrencies, including but not limited to: (a) global supply and demand; (b) investors' expectations with respect to the rate of inflation; (c) interest rates; (d) currency exchange rates, including the rates at which cryptocurrencies may be exchanged for fiat currencies; (e) fiat currency withdrawal and deposit policies of electronic market places where traders may buy and sell cryptocurrencies based on bid-ask trading activity with the various exchanges and the liquidity of those exchanges; (f) interruptions in service from or failures of major cryptocurrency exchanges; (g) investment and trading activities of large investors, including private and registered funds, that may directly or indirectly invest in cryptocurrencies; (h) monetary policies of governments, trade restrictions, currency devaluations and revaluations; (i) regulatory measures, if any, that restrict the use of cryptocurrencies as a form of payment; (j) the maintenance and development of the open-source protocol governing the cryptocurrency's network; (k) global or regional political, economic or financial events and situations; (l) expectations among market participants that the value of a cryptocurrency will soon change; and (m) the reduction in mining rewards of Bitcoin, including block reward halving events, which are events that occur after a specific period of time and reduce the block reward earned by miners.

Global supply for a particular cryptocurrency is determined by the asset's network source code, which sets the rate at which assets may be awarded to network participants. Global demand for cryptocurrencies is influenced by such factors as the increase in acceptance by retail merchants and commercial businesses of cryptocurrency as a payment alternative, the security of online exchanges and digital wallets, the perception that the use of cryptocurrencies is safe and secure, and the lack of regulatory restrictions on their use. Additionally, there is no assurance that any cryptocurrency will maintain its long-term value in terms of purchasing power. Any of these events could have a material adverse effect on the Company's financial position and the results of its operations.

(c) Liquidity

As of September 30, 2025, the Company had current assets of \$79.2 million, including cash and cash equivalents of \$59.3 million, current liabilities of \$42.1 million, total stockholders' equity of \$21.0 million and an accumulated deficit of \$(27.7) million. For the nine months ended September 30, 2025, the Company recognized net income of \$30.0 million, generated positive cash flows from operations of \$33.0 million and had cash flows provided by financing activities of \$10.2 million, primarily due to proceeds from the issuance of notes payable and proceeds from issuance of common stock. For the nine months ended September 30, 2025, the Company recognized interest expense of \$12.0 million and interest income of \$0.1 million. The Company expects its existing cash and cash equivalents, together with cash provided by operations, to be sufficient to fund its operations for a period of 12 months from the date that these consolidated financial statements are issued.

(d) Risks and Uncertainties

The operations of Bitcoin Depot are subject to various regulatory challenges and uncertainties. The Company's ability to operate and expand its cryptocurrency kiosk services in compliance with applicable laws and regulations is a significant risk that may impact its financial performance and overall business prospects. The regulatory landscape surrounding cryptocurrencies, including the operation of crypto kiosks, is rapidly evolving and can vary significantly from one jurisdiction to another. The impact of heightened regulatory oversight is not yet known. State agencies may propose and adopt new regulations (or interpret existing regulations) in ways that

BITCOIN DEPOT INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(UNAUDITED)

could result in significant adverse changes in the regulatory landscape for cryptocurrencies, regardless of whether these or other new laws are adopted.

The Company's financial performance and ability to achieve its business objectives may be significantly impacted by the outcome of ongoing regulatory discussions and potential changes in the regulatory framework governing cryptocurrencies. These uncertainties may result in lower revenue and margin, increased compliance costs, operational restrictions, or limitations on the Company's ability to expand its services or enter new markets. Compliance with current and proposed legislation that has not yet been published may be more challenging and costly than anticipated.

In addition, the Company's ability to obtain and maintain the necessary licenses, permits, and approvals from state regulatory authorities is subject to various factors beyond its control, including changes in laws, regulations, or interpretations thereof. Failure to comply with these requirements may result in penalties, fines, or even the suspension or termination of the Company's operations in the state.

(2) Basis of Presentation and Summary of Significant Accounting Policies

(a) Basis of Presentation

Unaudited Interim Financial Statements

The unaudited interim consolidated financial statements have been prepared in accordance with U.S. GAAP and pursuant to the rules and regulations of the U.S. Securities and Exchange Commission ("SEC") with respect to interim reporting. The unaudited consolidated financial statements should be read in conjunction with the audited consolidated financial statements of the Company as of December 31, 2024 on Form 10-K, filed with the SEC on March 24, 2025. The Company has included all normal recurring items and adjustments necessary for a fair presentation of the results of the interim period. The Company's interim unaudited consolidated financial statements are not necessarily indicative of results that may be expected for any other interim period or for the full year.

The Company consolidates business enterprises that it controls by ownership of a majority voting interest. However, there are situations in which consolidation is required even though the usual condition of consolidation (ownership of a majority voting interest) does not apply. An enterprise must consolidate a Variable Interest Entity ("VIE") if it is determined to be the primary beneficiary of the VIE. The primary beneficiary has both (a) the power to direct the activities of the VIE that most significantly impact the entity's economic performance, and (b) the obligation to absorb losses or the right to receive benefits from the VIE that could potentially be significant to the VIE. The Company consolidates all entities that it controls by ownership of a majority voting interest as well as VIEs for which the Company is the primary beneficiary.

The consolidated financial statements of the Company include the accounts of Bitcoin Depot Inc. and its controlled subsidiaries: BCD Merger Sub LLC, BT HoldCo LLC ("BT HoldCo"), Kiosk HoldCo LLC, Bitcoin Depot Operating, LLC, Lux Vending Kiosk, LLC, Mintz Assets, Inc., BTM Solutions India Private Limited, Express Vending, Inc., Kiosk Technicians LLC, NZ BTM Ltd., AUS BTM Pty Ltd., UK BTM LTD, HK BTM Limited, BTM International Holdings I LLC, BTM International Holdings II LLC, Bitcoin Depot, S. de R.L. de C.V., Intuitive Software, LLC, Digital Gold Ventures, Inc. ("Digital Gold"), and BitAccess Inc. BCD Merger Sub LLC is a holding company with ownership of BT HoldCo. BT HoldCo is a holding company with ownership of Kiosk HoldCo LLC. Kiosk HoldCo LLC is a holding company with ownership of Bitcoin Depot Operating, LLC. Bitcoin Depot Operating, LLC is a holding company with ownership of Lux Vending Kiosk LLC, Mintz Assets, Inc. and Intuitive Software, LLC. Mintz Assets, Inc. is a holding company that holds the ownership of BTM Solutions India Private Limited, Express Vending, Inc., Kiosk Technicians LLC, NZ BTM Ltd., AUS BTM Pty Ltd., UK BTM LTD, HK BTM Limited, BTM International Holdings I LLC, and BTM International Holdings II LLC. BTM International Holdings I LLC and BTM International Holdings II LLC are holding companies that hold joint ownership of Bitcoin Depot, S. de R.L. de C.V. Express Vending, Inc. is a Canadian corporation whose business activities include owning and operating a network of BTM kiosks in Canada. Intuitive Software, LLC is a holding company that holds an 82.14% equity interest (through its ownership of Digital Gold) in BitAccess Inc., a Canadian corporation. The non-controlling interests held by investors directly in BT HoldCo and BitAccess are presented separately as further discussed in Note 11. Intercompany balances and transactions have been eliminated in consolidation.

Reverse Recapitalization

GSR II Meteora Acquisition Corp. ("GSRM") was a blank check company incorporated as a Delaware corporation on October 14, 2021, for the purpose of effecting a merger or similar business combination with one or more businesses. On March 1, 2022, GSRM consummated its Initial Public Offering ("IPO"). On August 24, 2022, GSRM entered into a Transaction Agreement, as subsequently

BITCOIN DEPOT INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(UNAUDITED)

amended (the “Transaction Agreement”), by and among GSRM, GSR II Meteora Sponsor LLC (the “Sponsor”), Lux Vending, LLC (dba Bitcoin Depot) (“Legacy Bitcoin Depot”) and BT Assets, Inc. (“BT Assets”) (the “Transaction Agreement”). Prior to the events contemplated in the Transaction Agreement (collectively, the “Merger”), BT Assets was the sole owner and member in Legacy Bitcoin Depot (the “Member”).

On June 30, 2023 (the “Closing Date”), Legacy Bitcoin Depot merged with and into Bitcoin Depot Operating LLC (“BT OpCo”), with BT OpCo surviving the Merger as the post-transaction operating company owned solely by a newly formed entity, BT HoldCo with common units (the “BT HoldCo Common Units”), preferred units (the “BT HoldCo Preferred Units”) and earnout units (the “BT HoldCo Earnout Units”) outstanding and issued to BT Assets. In connection with the Merger, GSRM changed its name to Bitcoin Depot Inc., purchased BT HoldCo Common Units owned by BT Assets and was issued BT HoldCo Earnout Units and warrants to purchase a number of BT HoldCo Common Units equal to the number of shares of Class A common stock that may be purchased upon the exercise in full of all Warrants outstanding immediately after Closing (“BT HoldCo Matching Warrants”). The former owners of Legacy Bitcoin Depot (i.e., BT Assets and the owners thereof) were issued 44,100,000 non-economic, super voting shares of Class V common stock in Bitcoin Depot. The Class V common stock held by BT Assets corresponds to units held by BT Assets in BT HoldCo and represented non-controlling interests in the Company, as described in Note 11. Following the closing of the Merger, the Company was organized under an “Up-C” structure in which the business of the Company was operated by BT HoldCo and its subsidiaries, and Bitcoin Depot’s only material direct asset consists of equity interests in BT HoldCo. At June 30, 2023, the Company had issued and outstanding 12,358,691 common units, 4,300,000 Series A Preferred Units and 43,848,750 warrants in BT HoldCo. Also at June 30, 2023, BT Assets owned 41,200,000 common units, 2,900,000 Founder Preferred Units, 5,000,000 Class 1 Earnout Units, 5,000,000 Class 2 Earnout Units and 5,000,000 Class 3 Earnout Units in BT HoldCo.

Notwithstanding the legal form of the Merger pursuant to the Transaction Agreement, the Merger was accounted for as a reverse recapitalization. The Merger was accounted for as a common control transaction and reverse recapitalization in accordance with U.S. GAAP, as BT Assets controlled BT OpCo both before and after the transactions. Legacy Bitcoin Depot was determined to be the predecessor and represented a continuation of BT OpCo’s balance sheet and consolidated statement of income, reflective of the recapitalization of the Merger.

As a result of the reverse capitalization accounting, the assets and liabilities of Legacy Bitcoin Depot were reflected by the Company at their historical cost with no additional goodwill or intangible assets recorded, accompanied by a recapitalization of the equity structure.

In connection with the Merger, the Company’s Class A common stock is now listed on the National Association of Securities Dealers Automated Quotations (“Nasdaq”) under the symbol BTM and the Warrants to purchase the Class A common stock are listed on the Nasdaq under the symbol BTMWW in lieu of the GSRM Ordinary Shares and GSRM’s warrants, respectively. GSRM’s units automatically separated into the GSRM’s Ordinary Shares and GSRM’s warrants and ceased trading separately on the Nasdaq following the Closing Date. Prior to the Merger, GSRM neither engaged in any operations nor generated any revenue. Until the Merger, based on GSRM’s business activities, it was a shell company as defined under the Securities Exchange Act of 1934, as amended (the “Exchange Act”).

Up-C Restructuring

On May 30, 2025, the Company entered into and consummated the transactions contemplated by the Agreement and Plan of Merger (the “Merger Agreement”) with BT Assets, Mr. Brandon Mintz, the Company’s Founder and Chief Executive Officer, BD Investment Holdings LLC, a Delaware limited liability company, BD Investment Holdings II LLC, a Delaware limited liability company, BT HoldCo, BCD Merger Sub LLC, a Delaware limited liability company and a direct wholly owned subsidiary of the Company (“Merger Sub LLC”), and BCD Merger Sub Inc., a Delaware corporation and a direct wholly owned subsidiary of the Company (“Merger Sub Inc.”), resulting in, among other things, BT HoldCo becoming a wholly owned subsidiary of the Company. In addition, the Company and BT Assets agreed to terminate the Tax Receivable Agreement, dated as of June 30, 2023 (the “Tax Receivable Agreement”), by and among the Company, BT HoldCo and BT Assets (the transactions contemplated by the Merger Agreement, the “Up-C Restructuring”).

Under the Company’s organizational structure immediately prior to the consummation of the Up-C Restructuring, the Company was a holding company and its principal asset was its ownership of BT HoldCo Common Units and warrants to purchase BT HoldCo Common Units (“BT HoldCo Warrants”). The Company, BT Assets, which prior to the merger was an entity owned and controlled by Mr. Mintz, and certain entities affiliated with Mr. Mintz, were the only members of BT HoldCo. The Company’s public stockholders held shares of Class A Common Stock, which are entitled to one vote per share on all matters submitted to a vote of stockholders of

BITCOIN DEPOT INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(UNAUDITED)

the Company and have economic rights (including rights to dividends and distributions upon liquidation by the Company), and/or Company Warrants, which are exercisable for shares of Class A Common Stock at a price of \$11.50 per share. Mintz, through his ownership of BT Assets, held (i) 41,193,024 shares of the Company's Class V common stock constituting all of the issued and outstanding shares of Class V Common Stock immediately prior to the consummation of the Up-C Restructuring, which were entitled to ten votes per share on all matters submitted to a vote of stockholders of the Company, but had no economic rights, and (ii) 41,193,024 BT HoldCo Common Units, constituting approximately 63.48% of the issued and outstanding BT HoldCo Common Units immediately prior to the consummation of the Up-C Restructuring, which have economic rights equivalent to the Class A common stock (including rights to distributions from BT HoldCo, including upon liquidation), but have no voting rights.

Following the consummation of the Up-C Restructuring, the public stockholders continue to hold their issued and outstanding Class A Common Stock and Company Warrants, and their respective voting and economic rights with respect to the Company did not change as a result of the Up-C Restructuring. In connection with the Up-C Restructuring, (a) the stockholders of BT Assets (which included Mr. Mintz and his affiliated entities), in consideration for 100% of the shares of capital stock of BT Assets, received a number of newly issued shares of the Company's Class M common stock equivalent to one share of Class M common stock for each share of Class V common stock held by BT Assets immediately prior to the consummation of the Up-C Restructuring. The shares of Class M common stock are entitled to ten votes per share on all matters submitted to a vote of stockholders and have economic rights (including rights to dividends and distributions upon liquidation by the Company) that are the same as the Class A Common Stock. As a result, Mr. Mintz no longer has economic rights through BT HoldCo Common Units and instead participates, together with the public stockholders of the Company, directly in the economics of the Company through their ownership of Class M Common Stock and Class A common stock, respectively. Under the Company's second amended and restated certificate of incorporation, shares of Class M common stock automatically convert on a one-for-one basis into fully paid and non-assessable shares of Class A common stock upon (a) the transfer of Class M common stock to any person other than Mr. Mintz or his affiliates and (b) Mr. Mintz and his affiliates ceasing to own shares of Class M common stock that represent at least 20% of the voting power represented by the shares of Class V common stock held by Mr. Mintz and his affiliates as of immediately after the closing of the Company's de-SPAC transaction on June 30, 2023. In connection with the Up-C Restructuring, the Company and Mr. Mintz agreed to terminate the Tax Receivable Agreement.

As consideration under the Merger Agreement, the Company (i) issued to former stockholders of BT Assets 41,193,024 shares of Class M common stock in exchange for the shares of Class V common stock and BT HoldCo Common Units held by BT Assets immediately prior to the Up-C Restructuring, and (ii) entered into a contingent equity rights agreement with the former stockholders of BT Assets which provides potential economic benefits equivalent to those provided to BT Assets by the earnout units in BT HoldCo held by BT Assets immediately prior to the Up-C Restructuring. As consideration for the termination of the Tax Receivable Agreement, as of September 30, 2025 the Company has made cash payments to the former stockholders of BT Assets (including Mr. Mintz and his affiliated entities) in the amount of \$9.1 million. As the transaction involved an exchange of equity interests, with no change in control over net assets, it was accounted for as a common control transaction.

(b) Use of Estimates

The preparation of consolidated financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the consolidated financial statements, and the reported amounts of revenues and expenses during the reporting period. Estimates are used for, but not limited to, valuation of current and deferred income taxes, the determination of the useful lives of property and equipment, recoverability of intangible assets and goodwill, fair value of long-term debt, present value of lease liabilities and right-of-use assets, assumptions and inputs for fair value measurements used in business combinations, valuation of cryptocurrencies, share-based compensation and contingencies, including liabilities that the Company deems are not probable of assertion. The Company bases its estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances. Actual results could differ from these estimates.

(c) Concentration of Credit Risk Arising from Cash Deposits in Excess of Insured Limits

The Company maintains cash in established U.S., Canadian and Australian financial institutions that often will exceed federally insured limits. The Company has not experienced any losses in such accounts that are maintained at the financial institutions.

The Company maintains cash balances in its BTMs and in fiat wallets with cryptocurrency exchanges to facilitate the purchase and sale of cryptocurrencies. The cash balances in the BTMs are not insured. The Company had cash balances of \$14.9 million and \$10.7 million in BTMs as of September 30, 2025 and December 31, 2024, respectively. Cash maintained in fiat wallets with cryptocurrency

BITCOIN DEPOT INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(UNAUDITED)

exchanges is not insured. The Company had immaterial balances in cash with cryptocurrency exchanges as of September 30, 2025 and December 31, 2024.

(d) Cash and Cash Equivalents

Cash and cash equivalents includes cash maintained at various financial institutions, cryptocurrency exchanges, and in BTMs owned and leased by the Company.

Cash in transit consists of cash that is picked up by armored truck companies from the Company's BTM machines but not yet deposited in the Company's bank accounts. As of September 30, 2025 and December 31, 2024, the Company had cash in transit of \$1.7 million and \$2.6 million, respectively. Management evaluates cash in transit based on outstanding cash deposits on cash picked up by the armored truck companies, historical cash deposits and cash that is lost during transit, which is immaterial. The armored truck companies maintain insurance over theft and losses.

(e) Cryptocurrencies

Cryptocurrencies are a unit of account that function as a medium of exchange on a respective blockchain network, a digital and decentralized ledger that keeps a record of all transactions that take place across a peer-to-peer network. The Company's cryptocurrencies primarily consisted of Bitcoin ("BTC") as of and for the three and nine months ended September 30, 2025 and for the year ended December 31, 2024.

The Company purchases cryptocurrencies, which are held in the Company's hot wallets, on a just-in-time basis to facilitate sales to customers and mitigate exposure to volatility in cryptocurrency prices. The Company sells its cryptocurrencies to its customers from its BTMs and BDCheckout locations in exchange for cash, for a prescribed transaction fee applied to the current market price of the cryptocurrency at the time of the transaction, plus a predetermined markup. When cryptocurrency is sold to customers, the Company relieves the carrying amount, measured at fair value as of the most recent remeasurement date, on a first-in, first-out basis within cost of revenue (excluding depreciation and amortization). The Company has control and ownership of its cryptocurrencies which are stored in both the Company's proprietary hot wallets and hot wallets hosted by a third-party, BitGo, Inc.

In June 2024, the Company began allocating a portion of its cash reserves to Bitcoin. As of September 30, 2025 and December 31, 2024, the Company had Bitcoin of \$11.4 million (recorded at fair value) and \$0.6 million (recorded at adjusted cost basis), respectively, allocated to its treasury strategy within Cryptocurrencies on its Consolidated Balance Sheets.

On January 1, 2025, the Company adopted ASU 2023-08 "*Intangibles—Goodwill and Other—Crypto Assets (Subtopic 350-60) Accounting for and Disclosure of Crypto Assets*" ("ASU 2023-08"). See Note 3. Beginning January 1, 2025, cryptocurrencies are recorded on the Company's Consolidated Balance Sheets at fair value. In 2024, prior to the adoption of ASU 2023-08, cryptocurrencies were recorded on the Company's consolidated Balance Sheets at cost, less impairment charges, if any.

We determine and record the fair value of our cryptocurrencies in accordance with ASC 820, *Fair Value Measurement* ("ASC 820"), based on quoted prices on the active exchange that we have determined is the principal market for such assets (Level 1 inputs). We determine the cost basis of our cryptocurrencies using the specific identification of each unit received. For all cryptocurrencies during periods prior to January 1, 2025, impairment losses were recognized within Cost of Revenue in the Consolidated Statements of Income in the period in which the impairment was identified. For periods after January 1, 2025, realized and unrealized gains and losses for cryptocurrencies held as investments are recorded in Other income (expense), net, and realized and unrealized gains and losses and cryptocurrencies used to facilitate sales are recorded in Cost of Revenue in our Consolidated Statements of Income.

The related cash flows from revenue generating cryptocurrency transactions are presented as cash flows from operating activities on the Consolidated Statements of Cash Flows. The related cash flows from investments in and sales of cryptocurrencies held for investment purposes are presented as cash flows from investing activities on the Consolidated Statements of Cash Flows.

The primary purpose of the Company's operations is to buy and sell Bitcoin using its BTM network and other services. The Company does not engage in broker-dealer activities. The Company uses various exchanges and liquidity providers to purchase, liquidate and manage its cryptocurrency positions; however, this does not impact the accounting for these assets.

BITCOIN DEPOT INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(UNAUDITED)

See Notes 2(j) and 2(k) to the consolidated financial statements for further information regarding the Company's revenue recognition and cost of revenue related to the Company's cryptocurrencies.

(f) Property and Equipment

Property and equipment are stated at cost, less accumulated depreciation. Finance leases are stated at the present value of the future minimum lease payments, less accumulated depreciation. Expenditures for maintenance and repairs are expensed as incurred. The cost of assets sold, retired, or otherwise disposed of, and the related accumulated depreciation are eliminated from their respective accounts and any resulting gain or loss is recognized in the Consolidated Statements of (Loss) Income upon disposition.

Depreciation of property and equipment is determined using the straight-line method over the estimated useful lives of the assets, which are as follows:

Furniture and fixtures	7 years
Leasehold improvements	Lesser of estimated useful life or life of the lease
Kiosk machines (BTMs) - owned	7 years
Kiosk machines (BTMs) - leased	7 years or life of the lease

Depreciation expense for the three and nine months ended September 30, 2025 totaled \$1.5 million and \$4.5 million, respectively.

Depreciation expense for the three and nine months ended September 30, 2024 totaled \$1.9 million and \$7.1 million, respectively.

(g) Collaborative Arrangement

In March 2025, the Company entered into a collaborative arrangement under ASC 808, *Collaborative Arrangements* (ASC 808) with an Australian digital currency exchange provider registered with the Australian Transaction Reports and Analysis Centre (AUSTRAC) ("Partner"), authorized to provide virtual asset exchange and bullion trading services within Australia. The purpose of the arrangement is the deployment and operation of an Australian BTM network. In connection with the arrangement, the Company funds and imports the BTMs, programs kiosk software for compliant transactions, procures Know Your Customer (KYC) and Anti-Money Laundering (AML) vendor support, and provides ongoing operational support, marketing, and day-to-day project management. The Partner provides the virtual-asset exchange services to BTM customers, including AML and Counter-Terrorism Financing (CTF) compliance. This arrangement is accounted for as a collaborative arrangement under ASC 808 due to both parties actively participating in the operation of the Australian BTM program and performing distinct, complementary activities in pursuing a common commercial objective, without the formation of a separate legal entity or shared equity ownership. Under the arrangement, the Partner is entitled to the greater of 6.5% of gross profit from Australian BTM operations or a minimum weekly retainer. The Company recognized revenue from third-party customer transactions on a gross basis under ASC 606, *Revenue from Contracts with Customers* (ASC 606) as principal. Amounts arising from transactions between the participants are recorded in cost of revenue or selling, general and administrative expenses based on the nature of the costs. During the three and nine months ended September 30, 2025, amounts attributable to transactions between the participants were immaterial.

(h) Impairment of Long-Lived Assets

Long-lived assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset group may not be fully recoverable. Recoverability of assets to be held and used is measured by a comparison of the carrying amount of the asset group to its fair value, which is normally determined through analysis of the future net cash flows expected to be generated by the asset group. If such asset group is considered to be impaired, the impairment to be recognized is measured by the amount that the carrying amount of the asset group exceeds the fair value of the asset group. There were no impairments of long-lived assets for the three and nine months ended September 30, 2025 and 2024.

(i) Goodwill and Intangible Assets, net

Goodwill represents the excess of the consideration transferred over the estimated fair value of the acquired assets, assumed liabilities, and any non-controlling interest in the acquired entity in a business combination. The Company tests for impairment at least annually, or more frequently if an event occurs or circumstances change that would more likely than not reduce the fair value of the reporting unit below its carrying value. The Company performs its annual test for impairment as of October 1 at the reporting unit level. There was no impairment of goodwill for the three and nine months ended September 30, 2025 and 2024.

BITCOIN DEPOT INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(UNAUDITED)

Intangible assets, net consists of tradenames, customer relationships, and software applications. Intangible assets with finite lives are amortized over their estimated lives and evaluated for impairment when an event or change in circumstances occurs that warrants such a review. Management periodically evaluates whether changes to estimated useful lives of intangible assets are necessary to ensure its estimates accurately reflect the economic use of the related intangible assets.

(j) Revenue Recognition

BTMs and BDCheckout

Revenue is principally derived from the sale of cryptocurrencies at the point-of-sale on transactions initiated by customers. These customer-initiated transactions are governed by terms and conditions agreed to at the time of each point-of-sale transaction and do not extend beyond the transaction. The Company charges a fee at the transaction level. The transaction price for the customer is the price of the cryptocurrency, which is based on the exchange value at the time of the transaction, plus a markup, and a flat fee. The exchange value is determined using real-time exchange prices and the markup percentage is determined by the Company and depends on the current market, competition, the geography of the location of the sale, and the method of purchase.

The Company's revenue from contracts with customers is principally composed of a single performance obligation to provide cryptocurrencies when customers buy cryptocurrencies at a BTM or through BDCheckout. BDCheckout sales are similar to sales from BTM in that, customers buy cryptocurrencies with cash; however, the BDCheckout transactions are completed at the checkout counter of retail locations, initiated using the Bitcoin Depot mobile app instead of through a BTM. Regardless of the method by which the customer purchases the cryptocurrency, the Company considers its performance obligation satisfied when control of the cryptocurrency is transferred to the customer, which is at the point in time the cryptocurrency is transferred to the customer's cryptocurrency wallet and the transaction is validated on the blockchain.

The typical process time for our transactions with customers is 30 minutes or less. Contract liabilities are amounts received from customers in advance of the Company transferring the cryptocurrencies to the customer's wallet and the transaction being validated on the blockchain. Contract liabilities are presented in "Deferred revenue" on the consolidated balance sheets as of September 30, 2025 and December 31, 2024.

Judgment is required in determining whether the Company is the principal or the agent in transactions with customers. The Company evaluates the presentation of revenue on a gross or net basis based on whether it controls the cryptocurrency before control is transferred to the customer (gross) or whether it acts as an agent by arranging for other customers on the platform to provide the cryptocurrency to the customer (net). The Company controls the cryptocurrency before it is transferred to the customer, has ownership risk related to the cryptocurrency (including market price volatility), sets the transaction fee to be charged, and is responsible for transferring the cryptocurrency to the customer upon purchase. Therefore, the Company is the principal in transactions with customers and presents revenue and cost of revenue (excluding depreciation and amortization) from the sale of cryptocurrencies on a gross basis.

(k) Cost of Revenue (excluding depreciation and amortization)

The Company's cost of revenue consists primarily of direct costs related to selling cryptocurrencies and operating the Company's network of BTMs. The cost of revenue (excluding depreciation and amortization) caption includes cryptocurrency expenses, floorspace lease expenses, and kiosk operations expenses.

Cryptocurrency expenses

Cryptocurrency expenses include the cost of cryptocurrencies, fees paid to obtain cryptocurrencies, gains on sales of cryptocurrencies on exchange, fees paid to operate the software on the BTMs, and fees paid to transfer cryptocurrencies to customers.

Floorspace lease expenses

Floorspace lease expenses include lease expense related to the placement of BTMs.

Kiosk operations expenses

Kiosk operations expenses include the cost of kiosk repair and maintenance and the cost of armored trucks to collect and transport cash deposited into the BTMs.

BITCOIN DEPOT INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(UNAUDITED)

The Company presents cost of revenue in the Consolidated Statements of (Loss) Income exclusive of depreciation related to BTMs and amortization of intangible assets related to software applications, tradenames and customer relationships.

(l) Advertising

The Company expenses advertising costs as incurred. Advertising expenses were \$1.7 million and \$4.9 million for the three and nine months ended September 30, 2025, respectively. Advertising expenses were \$1.5 million and \$4.8 million for the three and nine months ended September 30, 2024, respectively. Amounts are included in selling, general and administrative expenses in the Consolidated Statements of Income.

(m) Foreign Currency

The functional currency of the Company is the USD. The functional currency of Express Vending, Inc. is the Canadian Dollar. The functional currency of AUS BTM Pty Ltd. is the Australian Dollar. All revenue, cost and expense accounts are translated at an average of exchange rates in effect during the period. Assets and liabilities recorded in foreign currencies are translated at the exchange rate as of the balance sheet date. The resulting translation adjustments are recorded as a separate component of Stockholders' (Deficit) Equity, identified as accumulated other comprehensive loss.

(n) Income Taxes

Bitcoin Depot Inc. is treated as a corporation for federal income tax purposes.

As a result of the Up-C Restructuring, the transaction was stepped together as a single-tax-free reorganization pursuant to Section 368(a)(1)(A) for federal income tax purposes. As a result of the Up-C Restructuring, BT HoldCo is now wholly owned by the Company through BCD Merger Sub, LLC and with the consent of BT HoldCo, has elected under the Internal Revenue Code and similar state statutes to be a disregarded entity. Bitcoin Depot Operating, LLC is a single-member limited liability company and owned by BT HoldCo through Kiosk HoldCo LLC, and with the consent of BT HoldCo, has elected under the Internal Revenue Code and similar state statutes to be a disregarded entity. In lieu of federal corporate income taxes, Bitcoin Depot Operating, LLC and BT HoldCo reflects its operating results on the Company's federal tax return. BCD Merger Sub, LLC, a single-member limited liability company and owned by Bitcoin Depot, Inc, has elected under the Internal Revenue Code and similar state statutes to be a disregarded entity. In lieu of federal corporate income taxes, BCD Merger Sub, LLC reflects its operating results on the Company's federal tax return. As a result of the Up-C Restructuring, BT HoldCo's inside basis cumulative timing differences will shift to the Company and the outside basis differences at the Company would become the inside basis differences of BT HoldCo. The revaluation between the inside and outside basis difference of the cumulative temporary differences was booked as a discrete item through tax expense.

Mintz Assets, Inc., is treated as a corporation for federal income tax purposes. Intuitive Software, LLC and its wholly owned subsidiary, Digital Gold, are treated as corporations for federal income tax purposes. BitAccess Inc. and Express Vending, Inc., are each taxed as Canadian corporations. For the nine months ended September 30, 2025 and 2024, there was no activity for Mintz Assets, Inc., Intuitive Software, LLC, BitAccess Inc., Digital Gold and Express Vending, Inc. As such, there were no federal income taxes for these entities.

Deferred taxes are recognized for future tax consequences attributable to differences between the consolidated financial statement carrying amounts of existing assets and liabilities and their respective tax basis and net operating loss carryforwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled.

The effect of any tax rate change on deferred taxes is recognized in the period that includes the enactment date of the tax rate change. Realization of deferred tax assets is assessed on an annual basis and, unless a deferred tax asset is more likely than not to be utilized, a valuation allowance is recorded to write down the deferred tax assets to their net realizable value. In assessing the realizability of deferred income tax assets, management considers whether it is more-likely-than-not that some portion or all of the deferred income tax assets will be realized. The ultimate realization of deferred income tax assets is dependent upon the generation of future taxable income during the periods in which those deductible temporary differences reverse. Management considers the scheduled reversal of deferred income tax liabilities, projected future taxable income, and tax planning strategies in making this assessment. For uncertain income tax positions, the Company uses a more-likely-than-not recognition threshold based on the technical merits of the income tax position taken. Income tax positions that meet the more-likely-than-not recognition threshold are

BITCOIN DEPOT INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(UNAUDITED)

measured in order to determine the tax benefit recognized in the financial statements. The Company recognizes accrued interest related to unrecognized tax benefits as part of income tax expense. Penalties, if incurred, are recognized as a component of income tax expense.

(o) Fair Value of Financial Instruments

Certain assets and liabilities are reported or disclosed at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date in the Company's principal market for such transactions. If the Company has not established a principal market for such transactions, fair value is determined based on the most advantageous market. The Company uses a three-level hierarchy that prioritizes fair value measurements based on the types of inputs used for the various valuation techniques. The three levels of the fair value hierarchy are described below:

- Level 1: Quoted (unadjusted) prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities.
- Level 2: Inputs other than quoted prices that are either directly or indirectly observable, such as quoted prices in active markets for similar assets or liabilities, quoted prices for identical or similar assets or liabilities in inactive markets, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.
- Level 3: Inputs that are generally unobservable, supported by little or no market activity, and typically reflect management's estimates of assumptions that market participants would use in pricing the asset or liability.

The categorization of an asset or liability within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement. The valuation techniques used by the Company when measuring fair value maximize the use of observable inputs and minimize the use of unobservable inputs.

(p) Share-Based Compensation

BitAccess

The Company maintains an equity award plan under which the officers and employees of BitAccess were awarded various types of share-based compensation, including options to purchase shares of BitAccess' common stock and restricted stock units.

For stock options, share-based compensation expense is based on the fair value of the awards on the date of grant, as estimated using the Black-Scholes option pricing model. The model requires management to make a number of assumptions, including the fair value and expected volatility of BitAccess' underlying BitAccess common stock price, expected life of the option, risk-free interest rate, and expected dividend yield. The fair value of the underlying stock is the estimated fair value of BitAccess common stock on the date of grant. The expected stock price volatility assumption for BitAccess' stock is determined by using a weighted average of the historical stock price volatility of comparable companies from a representative peer group, as BitAccess stock is not actively traded. The Company uses historical exercise information and contractual terms of options to estimate the expected term. The risk-free interest rate for periods within the expected life of the option is based on the U.S. Treasury zero coupon bonds with terms consistent with the expected term of the award at the time of grant. The expected dividend yield assumption is based on BitAccess' history and expectation of no dividend payouts.

2023 Omnibus Incentive Plan

In conjunction with the close of the Merger the Company established the Bitcoin Depot Inc. 2023 Omnibus Incentive Plan (the "Incentive Plan") under which officers, directors, and employees may be awarded various types of share-based compensation, including but not limited to, restricted stock, stock options, and restricted stock units. Under the Incentive Plan, the Company has granted time-based and performance-based restricted stock units ("RSUs"). The Company recognizes compensation expense for the RSUs in accordance with ASC 718 - *Compensation - Stock Compensation*, ("ASC 718").

For RSUs, share-based compensation expense is based on the fair value of the Company's Class A common stock at the closing price on the day before the date of grant. Share-based compensation expense associated with time-based RSUs is recognized on a straight-line basis over the award's requisite service period (generally the vesting period). Share-based compensation expense associated with performance-based RSUs is determined based on the number of performance-based RSUs that are earned based on the Company's

BITCOIN DEPOT INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(UNAUDITED)

achievement of certain adjusted EBITDA targets that are determined and approved by the Company's Compensation Committee at its sole discretion. Forfeitures of awards granted under the Incentive Plan are accounted for at the time the forfeiture occurs.

(q) Segment Reporting

Operating segments are defined as components of an entity for which separate financial information is available and that is regularly reviewed by the Chief Operating Decision Maker (the "CODM") in deciding how to allocate resources to an individual segment and in assessing performance. The Company's Chief Executive Officer is the Company's CODM. The CODM reviews financial information presented on a global, consolidated basis for purposes of making operating decisions, allocating resources, and evaluating financial performance. As such, the Company has determined that it operates as one operating segment and one reportable segment.

(r) Net Income Per Share Attributable to Class A and Class M Common Stock

Basic earnings per share of Class A and Class M common stock is computed by dividing net income attributable to the Company by the weighted-average number of shares of Class A and Class M common stock outstanding and Series A Preferred Stock outstanding, which has similar economic rights to the Class A common stock during the same period. Diluted net income per share of Class A and Class M common stock is computed by dividing net income attributable to the Company by the weighted-average number of shares of Class A and Class M common stock outstanding adjusted to give effect to potentially dilutive securities. Potential shares of common stock consist of incremental shares issuable upon the assumed exercise of stock options and warrants and vesting of RSUs, as applicable. The weighted-average shares outstanding used to compute net income per common share, basic and diluted, were 67,822,957 and 20,701,447 for the three months ended September 30, 2025 and 2024, respectively, and 42,165,276 and 18,908,391 for the nine months ended September 30, 2025 and 2024, respectively.

(s) Litigation

The Company assesses legal contingencies in accordance with ASC 450 - *Contingencies* and determines whether a legal contingency is probable, reasonably possible or remote. When contingencies become probable and can be reasonably estimated, the Company records an estimate of the probable loss. When contingencies are considered probable or reasonably possible but cannot be reasonably estimated, the Company discloses the contingency when the probable or reasonably possible loss could be material. Legal costs are expensed in the period in which the costs are incurred.

(t) Earnouts

At the close of the Merger, GSRM received a total of 1,075,761 earnout shares ("Sponsor Earnout Shares") in the form of Class-E common stock of the Company. In December 2024, the BT HoldCo Founder Preferred Units were converted into BT HoldCo Common Units in connection with the payment of a \$29 million distribution to the holders of the Founder Preferred Units. During the three months ended March 31, 2025, the holders of the Series A Preferred Stock exercised their option to convert the Series A Preferred Stock for Class A common stock on a 1:1 basis. In conjunction with the conversion of the Series A Preferred Stock, the BT HoldCo Preferred Units were automatically converted into BT HoldCo Common Units. The conversion of the outstanding BT HoldCo Preferred Units triggered the automatic conversion of the Class E common stock into Class A common stock. As of June 30, 2025, the Company did not have any Class E common stock outstanding.

In addition to the Sponsor Earnout Shares, certain owners of BT HoldCo are entitled to receive an additional 15,000,000 BT HoldCo Earnout Units ("BT Earnout"). Pursuant to the Up-C Restructuring, the BT Earnout Units were cancelled and replaced with an equal amount of Contingent Equity Rights (CERs). The CERs are structured similarly to the Sponsor Earnout Shares with consistent milestones and vesting conditions.

The Company evaluated the Sponsor Earnout Shares and CERs under ASC 815-40, *Derivatives and Hedging—Contracts in Entity's Own Equity*, and concluded equity classification is appropriate. As equity-classified contracts, the Sponsor Earnout Shares are not subject to remeasurement provided the conditions for equity-classification continue to be met. The Sponsor Earnout Shares have been recorded in connection with the reverse recapitalization accounting as part of the adjustment to accumulated deficit due to the absence of additional paid in capital.

(u) Warrants

In connection with the Merger, the Company assumed a total of 43,848,750 Warrants, consisting of 31,625,000 Public Warrants and 12,223,750 Private Placement Warrants issued by GSRM which continue to be outstanding following the Merger. Each whole warrant entitles the holder to purchase one share of Class A common stock at a price of \$11.50 per share. The outstanding Warrants are

BITCOIN DEPOT INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(UNAUDITED)

accounted for as freestanding equity contracts and are classified in equity under ASC 815-40, *Derivatives and Hedging—Contracts in Entity's Own Equity*.

(v) Emerging Growth Company Status

The Company is an “emerging growth company,” as defined in Section 2(a) of the Securities Act of 1933, as amended (the “Securities Act”), as modified by the Jumpstart our Business Startups Act of 2012, (the “JOBS Act”), and it may take advantage of certain exemptions from various reporting requirements that are applicable to other public companies that are not emerging growth companies including, but not limited to, not being required to comply with the auditor attestation requirements of Section 404 of the Sarbanes-Oxley Act and reduced disclosure obligations regarding executive compensation in its periodic reports and proxy statements.

(3) Recent Accounting Pronouncements

Accounting Pronouncement Adopted

In November 2023, the FASB issued ASU 2023-07 “*Segment Reporting (Topic 280): Improvements to Reportable Segment Disclosures*”. The amendments require entities to disclose significant segment expenses impacting profit and loss that are regularly provided to the CODM. In addition, the amendments enhance interim disclosure requirements, clarify circumstances in which an entity can disclose multiple segment measures of profit or loss, provide new segment disclosure requirements for entities with a single reportable segment, and contain other disclosure requirements. The update is required to be applied retrospectively to prior periods presented, based on the significant segment expense categories identified and disclosed in the period of adoption. The amendments are required to be adopted for fiscal years beginning after December 15, 2023, and interim periods within fiscal years beginning after December 15, 2024 with early adoption permitted. The Company adopted this accounting standard effective January 1, 2024, which resulted in additional segment disclosures primarily related to significant expenses that are regularly provided to the CODM.

In December 2023, the FASB issued ASU 2023-08 “*Intangibles—Goodwill and Other—Crypto Assets (Subtopic 350-60) Accounting for and Disclosure of Crypto Assets*”. ASU 2023-08 requires entities to measure crypto assets that meet the scope criteria at fair value and to reflect changes in fair value in net income each reporting period. The amendments in ASU 2023-08 also require entities to present crypto assets measured at fair value separately from other intangible assets on the balance sheet and changes in the fair value measurement of crypto assets separately from changes in the carrying amounts of other intangible assets on the income statement. The amendments in the ASU are effective for all entities for fiscal years beginning after December 15, 2024, including interim periods within those fiscal years. Early adoption is permitted for both interim and annual financial statements that have not yet been issued or made available for issuance. The Company adopted this accounting standard on a modified retrospective approach effective January 1, 2025. See Note 12, Cryptocurrencies, for the inclusion of the new required disclosures. The cumulative effect of the changes made on our January 1, 2025 consolidated balance sheet for the adoption of ASU 2023-08 was as follows (in thousands):

	Balances at December 31, 2024		Adjustments from Adoption of ASU 2023-08		Balances at January 1, 2025
Assets					
Cryptocurrencies	\$ 1,510	\$	852	\$	2,362
Stockholders' (deficit) equity					
Accumulated deficit	\$ (44,349)	\$	852	\$	(43,497)

In December 2023, the FASB issued ASU 2023-09 “*Improvements to Income Tax Disclosures (Topic 740)*”. The ASU requires companies to break out their income tax expense, income tax rate reconciliation and income tax payments made in more detail. For public companies, the requirements became effective for fiscal years beginning after December 15, 2024, with early adoption permitted. The Company adopted this accounting standard effective January 1, 2025 with no impact on interim financial statements.

Accounting Pronouncement Pending Adoption

In October 2023, the FASB issued ASU 2023-06, “*Disclosure Improvements: Codification Amendments in Response to the SEC's Disclosures Update and Simplification Initiative*”. The guidance amends certain disclosure and presentation requirements related to the statement of cash flows, accounting changes and error corrections, earnings per share, interim reporting, commitments, debt, equity, derivatives, transfers and services and various industry specific guidance. For entities subject to the SEC's existing disclosure requirements, the effective date for each amendment will be the date on which the SEC's removal of that related disclosure from Regulation S-X or Regulation S-K becomes effective. However, if by June 30, 2027, the SEC has not removed the existing disclosure

BITCOIN DEPOT INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(UNAUDITED)

requirements, the amendments will not become effective. Early adoption is not permitted. The Company is still assessing the impacts of this guidance to its consolidated financial statements.

In November 2024, the FASB issued ASU 2024-03, "Income Statement - Reporting Comprehensive Income - Expense Disaggregation Disclosures (Subtopic 220-40)". The ASU requires expanded disclosures and disaggregation of certain expenses included within the income statement. The amendments become effective for annual reporting periods beginning after December 15, 2026, and interim periods beginning after December 15, 2027. Early adoption is permitted. The Company is still assessing the impacts of this guidance on its consolidated financial statements.

In May 2025, the FASB issued ASU 2025-03, "*Business Combinations (Topic 805) and Consolidation (Topic 810): Determining the Accounting Acquirer in the Acquisition of a Variable Interest Entity*". The ASU eliminates the presumption that the primary beneficiary of a VIE is automatically the accounting acquirer when a VIE business is obtained primarily through an exchange of equity interests. ASU 2025-03 becomes effective for annual reporting periods beginning after December 15, 2026 and is to be applied prospectively. Early adoption is permitted. The Company is still assessing the impacts of this guidance on its consolidated financial statements.

(4) Segment Reporting

The Company operates as a single operating segment, with the Chief Executive Officer serving as the CODM. The CODM evaluates performance and allocates resources on a consolidated basis, reviewing financial and operational information for the entire organization rather than assessing discrete product or service lines or geographic locations. The Company concluded that it has a single reportable segment based on the similarity of the Company's products and services, its common customer base and the comparable regulatory environment in which it operates.

Revenue is primarily generated through cash paid by customers to purchase Bitcoin from the Company's BTMs with a minimal amount of revenue generated from other products and services. See Note 6 - Revenue for more information on the Company's revenue generating products and services.

As of and for the nine months ended September 30, 2025 and 2024, substantially all of the Company's revenue was generated in the U.S., and substantially all of its long-lived assets were located in the US.

As the CODM focuses on overall Company performance, any asset information used for decision-making purposes aligns with the consolidated totals presented in the Consolidated Balance Sheets. See the Consolidated Balance Sheets for additional information on the Company's asset composition.

The CODM considers multiple measures of profit or loss such as, EBITDA, Adjusted EBITDA, and Net Income and uses these measures to assess the Company's overall performance, compare actual results to budgets, and guide decisions on capital investments and other resource allocations.

The table below summarizes net income related segment information used by the CODM to evaluate the Company's performance (in thousands):

(1) Includes cryptocurrency impairments for the three and nine months ended September 30, 2024 of \$2.5 million and \$6.6 million, respectively.

(2) Includes insurance and other expenses.

(5) Related Party Transactions

Total cash distributions made to BT Assets during the three and nine months ended September 30, 2025 were \$0.2 million and \$10.4 million, respectively, and are accounted for as tax distributions. Total cash distributions made to BT Assets during the three and nine months ended September 30, 2024 were \$15.0 million and \$22.7 million, respectively. Cash distributions are classified as cash outflows from financing activities in the Consolidated Statements of Cash Flows. The total cash and non-cash distributions are reflected in the Consolidated Statement of Changes in Stockholders' (Deficit) Equity and the Consolidated Statement of Changes in Member's Equity. Under the terms of the Operating Agreement distributions made after the closing of the Merger are considered tax distributions.

At the closing of the Merger, the Company entered into a Tax Receivable Agreement with BT HoldCo and BT Assets. Pursuant to the Tax Receivable Agreement, the Company was generally required to pay BT Assets 85% of the amount of savings, if any, in U.S. federal, state, local, and foreign income taxes that the Company realized, or in certain circumstances was deemed to realize. In connection with the Up-C Restructuring, the Tax Receivable Agreement was terminated. See Note 2a *Basis of Presentation Summary of Significant Accounting Policies* and Note 15 *Income Taxes* for further discussion.

In connection with the closing of the Merger, the Company entered into separate indemnification agreements with its directors and executive officers. These agreements, among other things, require the Company to indemnify its directors and executive officers for certain costs, charges and expenses, including attorneys' fees, judgments, fines and settlement amounts, reasonably incurred by a director or executive officer in any action or proceeding because of their association with the Company or any of its subsidiaries. No amounts have been recognized related to these agreements as of September 30, 2025.

BITCOIN DEPOT INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(UNAUDITED)

During 2024, the Company had declared and paid a \$29.0 million preferred distribution to BT Assets as a return of BT Asset's preference over common units on the preferred units it holds in BT HoldCo. The distribution amounts reduce the preferred dividend attributable to the Non-Controlling Interest from \$29.0 million to a remaining balance of \$0 million.

On July 10, 2024, the Company entered into a Kiosk Service Agreement with an entity owned by the CEO, that owns and operates kiosks unrelated to the Company's Bitcoin ATM business. The agreement provides for the following services: kiosk placement, treasury management and other back-office services. The Company will receive 30% of the net profit as compensation. The Company did not have any revenue and only incurred an immaterial amount of start-up costs related to this agreement as of September 30, 2025.

On May 30, 2025, the Company entered into and consummated an Up-C Restructuring. Pursuant to the Up-C Restructuring, as consideration for the termination of the Tax Receivable Agreement, as of September 30, 2025, the Company has made cash payments to the former stockholders of BT Assets (including Mr. Mintz and his affiliated entities) in the amount of \$9.1 million. See Note 2 *Basis of Presentation and Summary of Significant Accounting Policies* for further discussion.

(6) Revenue

Revenue disaggregated by revenue stream is as follows (in thousands):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2025	2024	2025	2024
BTM Revenue	\$ 162,161	\$ 134,851	\$ 497,805	\$ 434,918
Other Revenue	321	420	1,011	1,958
Total Revenue	<u>\$ 162,482</u>	<u>\$ 135,271</u>	<u>\$ 498,816</u>	<u>\$ 436,876</u>

(7) Cost of Revenue (Excluding Depreciation and Amortization)

The following table presents cost of revenue (excluding depreciation and amortization) by category (in thousands):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2025	2024	2025	2024
Cryptocurrency expenses	\$ 116,318	\$ 97,555	\$ 356,826	\$ 327,778
Floorspace lease expenses	9,804	10,007	28,934	27,663
Kiosk operations expenses	6,235	5,291	17,070	15,407
Total Cost of Revenue (excluding depreciation and amortization reported separately)	<u>\$ 132,357</u>	<u>\$ 112,853</u>	<u>\$ 402,830</u>	<u>\$ 370,848</u>

The following table presents the components of cryptocurrency expenses (in thousands):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2025	2024	2025	2024
Cost of Cryptocurrency (1) - BTM Kiosk	\$ 116,247	\$ 97,425	\$ 356,579	\$ 326,734
Other cryptocurrency expenses	71	130	247	1,044
Total cryptocurrency expenses	<u>\$ 116,318</u>	<u>\$ 97,555</u>	<u>\$ 356,826</u>	<u>\$ 327,778</u>

(1) Prior to the adoption of ASC 2023-08, Cost of Cryptocurrency ("ASU 2023-08") included impairment losses recognized on cryptocurrencies net of any gains recognized from sales of cryptocurrencies on an exchange. Impairment charges of \$2.5 million and \$6.6 million were included in Cost of Cryptocurrency during the three and nine months ended September 30, 2024, respectively. Subsequent to the adoption of ASU 2023-08 on January 1, 2025, realized and unrealized gains and losses on cryptocurrencies during the three and nine months ended September 30, 2025 included in Cost of Cryptocurrency were immaterial.

BITCOIN DEPOT INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(UNAUDITED)

The following table reconciles amounts excluded from the cost of revenue (excluding depreciation and amortization) caption in the Consolidated Statements of Income included in total depreciation and amortization expense in the Consolidated Statements of Income for the period presented (in thousands):

(8) Fair Value Measurements

The Company's cryptocurrency holdings are measured at fair value on a recurring basis based on Level 1 inputs.

Assets and Liabilities Measured at Fair Value on a Non-recurring Basis

The Company's non-financial assets, such as goodwill, intangible assets, property and equipment and operating lease right-of-use assets are adjusted down to fair value when an impairment charge is recognized. Certain fair value measurements are based predominantly on Level 3 inputs. No impairment charges related to goodwill, intangible assets, operating lease right-of-use assets and property and equipment have been recognized for the three and nine months ended September 30, 2025 and 2024.

Assets and Liabilities Not Measured and Recorded at Fair Value

The Company considers the carrying value of cash and cash equivalents, accounts receivable, accounts payable and accrued expenses in the consolidated financial statements to approximate fair value due to their short maturities.

The carrying value of the notes payable related to the Company's franchise profit sharing arrangements was initially determined as the initial investment and is updated quarterly using a retrospective interest method. The effective interest rate used is determined based on actual and projected profit sharing payments which are generally unobservable inputs and are considered Level 3 fair value estimates. As of September 30, 2025 and December 31, 2024 the estimated carrying value and fair value of the notes payable related to the franchise profit sharing arrangements was approximately \$39.9 million and \$16.7 million, respectively.

The Company estimates the fair value of its fixed rate notes payable based on quoted prices in markets that are not active, which is considered a Level 2 valuation input. As of September 30, 2025, the estimated fair value of the fixed-rate notes were approximately \$27.1 million and the carrying value was \$27.7 million. As of December 31, 2024, the estimated fair value of the fixed-rate notes were approximately \$39.3 million and the carrying value was \$39.5 million.

Non-controlling Interest - BitAccess

In July 2021, the Company obtained a controlling interest in BitAccess Inc. in a business combination. The un-affiliated interest in BitAccess Inc. is reported as non-controlling interests in the accompanying consolidated financial statements. As of both September 30, 2025 and December 31, 2024, the non-controlling interest ownership was 17.86%.

The non-controlling interest has certain rights as defined in the Amended and Restated Shareholders Agreement, including the right, but not the obligation, to cause the Company to purchase the non-controlling interest immediately prior to a liquidity event (as defined in the Amended and Restated Shareholders Agreement) at the fair value of the non-controlling interest as of the liquidity event. The non-controlling interest is not mandatorily redeemable. The Company also holds a right, but not an obligation, to cause the non-controlling interest holders to sell the non-controlling interest under the same conditions. The Merger was not considered to be a liquidity event as defined in the agreement.

Non-controlling Interest - BT HoldCo

As a result of the Up-C Restructuring transaction, income attributable to BT HoldCo of \$6.4 million was apportioned through the date of the transaction. As of May 30, 2025, there is no longer a balance in non-controlling interests in BT HoldCo. See Note 2a for further discussion of the Up-C Restructuring.

(12) Cryptocurrencies

Cryptocurrency transactions

The following tables present additional information about the cost basis and fair value of cryptocurrencies, including those allocated to the Company's treasury strategy (in thousands, except units):

Cryptocurrency Inventory ⁽¹⁾	Units	September 30, 2025 Cost Basis	Fair Value	December 31, 2024 Carrying Value
Bitcoin (BTC)	19.23	\$ 1,966	\$ 2,195	\$ 949

(1) As of September 30, 2025 and December 31, 2024, the Company had an insignificant amount of Ethereum.

BITCOIN DEPOT INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(UNAUDITED)

Cryptocurrency Investments	Units	September 30, 2025 Cost Basis	Fair Value	December 31, 2024 Carrying Value
Bitcoin (BTC)	100.35	\$ 9,095	\$ 11,439	\$ 561

Cryptocurrency investment balance is classified as a short-term asset due to anticipation that the assets will be used to provide short-term liquidity.

As of September 30, 2025 and December 31, 2024, the Company had \$2.2 million due to liquidity providers related to Bitcoin purchased during the period. These amounts are paid in cash, generally within one week from which the expenses are incurred and are presented within "Accrued expenses and other current liabilities" on the Consolidated Balance Sheet.

(13) Notes Payable

Credit Agreement

On December 21, 2020, the Company entered into a credit agreement with a financial institution (the "Credit Agreement") which provided for initial term loans in an aggregate principal amount of \$25.0 million. On June 23, 2023, the Company amended and restated its credit agreement (the "Amended and Restated Note") with its existing lender. Under the Amended and Restated Note, the Company refinanced \$20.8 million of the note which is subject to an annual interest at a rate of 17% per annum.

On March 26, 2024, the Company entered into an amendment to the Amended and Restated Note (the "Second Amended and Restated Note") dated June 23, 2023 to provide an additional \$15.7 million in principal financing. This amendment increased the aggregate principal amount of the term loan facility to \$35.6 million which consists of \$19.9 million which was outstanding under the original loan and \$15.7 million in additional principal resulting in net cash flow of \$15.2 million related to the amendment. The Company accounted for the Second Amended and Restated Note as an extinguishment of debt in accordance with ASC 470, *Debt*. As such, the Company recognized the outstanding deferred financing costs of \$3.2 million as a loss on extinguishment of debt in interest expense on the Consolidated Statements of Income which consisted of a \$2.7 million write off unamortized deferred loan costs and \$0.5 million in loan origination fees related to the amendment.

As a part of the amendment, the Company incurred an additional exit fee of \$1.3 million which is due upon either maturity or the prepayment of the note. The total deferred financing costs associated with the amendment were \$1.4 million (which includes the exit fee of \$1.3 million) and are reflected as a reduction of the note proceeds. The Company will recognize these deferred financing costs, using the effective interest method over the term of the note.

On March 14, 2025, the Company entered into an amendment to the Second Amended and Restated Note ("Amendment No.1 of the Second Amended and Restated Note"). Pursuant to Amendment No.1 of the Second Amended and Restated Note, the maturity date of the loans was extended from June 23, 2026 to December 15, 2027 and the amortization schedule was revised to reflect the extended maturity date. The Company accounted for the amendment as a debt modification in accordance with ASC 470, *Debt*.

In the second quarter of 2025, the Company made an early repayment towards the outstanding loan amount, resulting in a reduction in the outstanding loan amount of \$5.0 million. The early repayment did not result in any other changes to the loan and the maturity date remains December 15, 2027.

Other Debt

Kiosk Profit Share Franchise Arrangements

During the nine months ended September 30, 2025, the Company entered into five kiosk franchise profit sharing arrangements. Under the terms of the agreements, the third parties receive a share in the profits generated by a group of specifically identified kiosks for a specified period of time. As a result of consideration received up front, the Company determined these arrangements were accounted for as debt in accordance with ASC 470, *Debt*. The Company recorded debt of \$20.7 million during the nine months ended September 30, 2025, as a result of these franchise profit sharing arrangements, maturing in March, April, June and August of 2033, with principal and interest paid monthly via profit sharing payments. The Company did not enter into any new kiosk franchise profit sharing arrangements during the three months ended September 30, 2025.

BITCOIN DEPOT INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(UNAUDITED)

During the year ended December 31, 2024, the Company entered into seven kiosk franchise profit sharing arrangements. The Company recorded debt of \$15.8 million as a result of these franchise profit sharing arrangements, maturing between February 2029 and February 2033, with principal and interest paid monthly via profit sharing payments.

The carrying values of the notes payable related to the Company's franchise profit sharing arrangements were initially determined as the initial investment and are updated quarterly using a retrospective interest method. The effective interest rate used in the calculation of monthly interest is determined based on actual and projected profit sharing payments and is updated on a quarterly basis under the retrospective interest method.

Equipment Financing

During the year ended December 31, 2024, the Company entered into five 36-month collateralized term loans for a total amount of \$2.6 million to facilitate the purchase of BTM kiosks. In accordance with the term loans, the kiosks are collateral for the loans. The loans are subject to annual interest rates between 16.86% and 17.42%, with interest and principal payments due monthly.

Notes payable consisted of the following as of September 30, 2025 and December 31, 2024 (in thousands):

	Notes Payable as of September 30, 2025			Notes Payable as of December 31, 2024

Common Stock, the “Common Stock”) and Preferred Stock. The total number of shares of capital stock which the Company shall have authority to issue is 2,272,250,000, divided into the following:

	Series A Preferred	Class A	Class B	Class E	Class M	Class O	Class V
Shares authorized	50,000,000	800,000,000	20,000,000	2,250,000	300,000,000	800,000,000	300,000,000
Shares outstanding	—	27,747,562	—	—	40,779,094	—	—
Par value	\$ 0.0001	\$ 0.0001	\$ 0.0001	\$ 0.0001	\$ 0.0001	\$ 0.0001	\$ 0.0001

Class A Common Stock

Holders of Class A common stock are entitled to one vote per share. Any dividends paid to the holders of Class A common stock will be paid on a pro rata basis. On a liquidation event, any distribution to common stockholders is made on a pro rata basis to the holders of the Class A common stock.

Class B Common Stock

Holders of Class B common stock are entitled to one vote per share. Dividends shall not be declared or paid on shares of Class B common stock. On a liquidation event, the holders of shares of Class B common stock shall not be entitled to receive any assets of the Company in the event of any such liquidation.

Class M Common Stock

Holders of Class M common stock are entitled to ten votes per share. Any dividends paid to the holders of Class M common stock will be paid on a pro rata basis. On a liquidation event, any distribution to common stockholders is made on a pro rata basis to the holders of the Class M common stock.

Class O Common Stock

Holders of Class O common stock are entitled to one vote per share. Dividends shall not be declared or paid on shares of Class O common stock. On a liquidation event, the holders of shares of Class O common stock shall not be entitled to receive any assets of the Company in the event of any such liquidation.

Class V Common Stock

Class V common stock are voting, non-economic shares and exchangeable, along with common units of BT HoldCo, into Class A common stock. Shares of Class V common stock are convertible into an equivalent number of shares (one-for-one) of Class A common stock automatically upon transfer, or BT Assets and its affiliates ceasing to beneficially own at least 20% of the voting power represented by the shares in Class V common stock.

Class E Common Stock

Class E common stock consisted of three series: 750,000 shares of Class E-1 common stock (which shall not be entitled to vote), 750,000 shares of Class E-2 common stock (which shall not be entitled to vote), 750,000 shares of Class E-3 common stock (which shall not be entitled to vote).

In December 2024, the BT HoldCo Founder Preferred Units were converted into BT HoldCo Common Units in connection with the payment of a \$29 million distribution to the holders of the Founder Preferred Units. During the three months ended March 31, 2025, the holders of the Series A Preferred Stock exercised their option to convert the Series A Preferred Stock for Class A Common Stock on a 1:1 basis. In conjunction with the conversion of the Series A Preferred Stock, the BT HoldCo Preferred Units were automatically converted into BT HoldCo Common Units. The conversion of the outstanding BT HoldCo Preferred Units triggered the automatic conversion of the Class E Common Stock into Class A Common Stock. As of the three months ended March 31, 2025, all shares of Class E common stock have been converted to Class A common stock.

Series A Preferred Stock

In connection with the Merger and PIPE Financing, on June 30, 2023, the Company issued 4,300,000 shares of its Series A Preferred Stock. Holders of the Series A Preferred Stock have no voting rights except in certain matters as described in the Company’s Certificate of Designation. There are no other voting rights associated with the Series A Preferred Stock.

BITCOIN DEPOT INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(UNAUDITED)

The Series A Preferred Stock is only entitled to dividends when and if declared by the Company's Board of Directors (the "Board"). There is no stated dividend preference. The Series A Preferred Stock participate fully with respect to all distributions and dividends made to the Company's Class A common stock, including in the event of a liquidation, dissolution, or winding up of the Company.

The Series A Preferred Stock is convertible at any time at the option of the holders into Class A common stock at an initial exchange ratio of 1:1, as adjusted for any dilutive events. The Series A Preferred Stock is economically identical to the Company's Class A common stock and is therefore treated as another class of common stock for reporting purposes (i.e., net income per share calculation), and is classified in permanent equity. During the three months ended March 31, 2025 and 2024, 1,733,884 and 50,000 shares of Series A Preferred Stock, respectively, were converted to shares of Class A common stock. During the three months ended March 31, 2025, all outstanding shares of Series A Preferred Stock have been converted to Class A common stock at the election of the Series A Preferred Stockholders.

Warrants

There are 43,848,750 warrants outstanding of which 31,625,000 ("Public Warrants") were issued by GSRM at the time of its IPO and 12,223,750 ("Private Warrants" and together the "Warrants") were issued by GSRM to GSR II Meteora Sponsor LLC ("Sponsor"). As a result of the Merger, these Warrants became Bitcoin Depot Warrants.

Each whole Warrant entitles the registered holder to purchase one share of Class A common stock at a price of \$11.50 per share. A holder may exercise its warrants only for a whole number of shares of Class A common stock. No fractional warrants will be issued upon separation of the units and only whole warrants will trade. The Company may redeem the Public Warrants at a price of \$0.01 per share if the closing price of the Company's Class A common stock equals or exceeds \$18.00 per share for any 20 trading days within a 30-trading day period. The Private Warrants cannot be redeemed, even if sold or transferred to a non-affiliate. The Warrants will expire five years after the Closing Date, June 30, 2028, or earlier upon redemption or liquidation. The Company also has the ability to redeem outstanding Public Warrants at any time after they become exercisable and prior to their expiration, at a price of \$0.01 per Public Warrant, provided that the last reported sale price of Class A common stock for any 20 trading days within a 30-trading day period ending on the third trading day prior to the date on which we send the notice of redemption to the Public Warrant holders equals or exceeds \$18.00 per share and provided certain other conditions are met.

The Private Warrants have terms and provisions that are identical to those of the Public Warrants, except the Private Warrants are not subject to redemption, and do not become subject to redemption after transfer to a non-affiliate (a distinction from other private placement warrants issued in connection with GSRM transactions).

The Warrants are accounted for as freestanding equity contracts and are classified in equity under ASC 815-40, Derivatives and Hedging—Contracts in Entity's Own Equity. In connection with the Merger, the Warrants were recorded in connection with the reverse recapitalization accounting as part of the adjustment to accumulated deficit on the consolidated Balance Sheet and Consolidated Statement of Changes in Stockholders' (Deficit) Equity.

Earnouts

In addition to the Sponsor Earnout Shares described above that have all previously been converted into Class A common stock, BT HoldCo also issued ("the BT HoldCo Earnout Units"), of which 1,075,061 were issued to the Company and 15,000,000 were issued to BT Assets. During the three months ended March 31, 2025, all 1,075,061 shares issued to the Company converted to BT HoldCo common units. On May 30, 2025, pursuant to the Up-C Restructuring, the 15,000,000 BT HoldCo Earnout Units issued to BT Assets were replaced with 15,000,000 BT HoldCo Contingent Equity Rights with substantially the same economics and vesting terms.

During the nine months ended September 30, 2025, the market price of the Company's Class A common stock did not exceed the required price per share. Additionally, in accordance with the earnout provisions, the market price of the Company's Class A common stock did not exceed \$12.00 per share for any 10 trading days within any consecutive 20 trading day period after the Merger to achieve the 1st vesting hurdle.

Share repurchase program

On September 22, 2023, the Company announced that its Board has authorized a share repurchase program pursuant to which the Company is authorized to repurchase up to \$10.0 million of outstanding shares of its Class A common stock through and including June 30, 2024. The Company made an accounting policy election to measure the fair value of purchases or sales of securities, including purchases of its own shares as part of the share repurchase program, as of the trade date.

BITCOIN DEPOT INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(UNAUDITED)

During the six months ended June 30, 2024, the Company repurchased 69,976 shares at a total cost of \$0.2 million with an average cost per share of \$2.26.

From the date of authorization through program expiration on June 30, 2024, 190,620 shares of the Company's Class A common stock had been repurchased with a total cost of \$0.4 million.

Equity Offering Program

On November 20, 2024, the Company entered into an At Market Issuance Sales Agreement with certain sales agents (the "ATM Equity Offering"), pursuant to which the Company may sell, from time-to-time, shares of its Class A common stock, par value \$0.0001 per share, having an aggregate offering amount of up to approximately \$13.1 million, so long as the total market capitalization of Class A common stock held by non-affiliates is below \$75.0 million. If the market capitalization exceeds \$75.0 million, the aggregate offering amount increases to \$25.0 million.

On July 1, 2025, the Company terminated its original At Market Issuance Sales Agreement (the "Original ATM Equity Offering"), pursuant to which the Company was permitted to sell, from time-to-time, shares of its Class A common stock, par value \$0.0001 per share. The Original ATM Equity Offering was capped at a total sale amount of \$25 million because at the time of filing the Company was subject to the "Baby Shelf" rules which limited sales to one-third of the unaffiliated market cap of the Company. The recent increase in the Company's stock price has changed the Company's SEC filing status and it is no longer subject to the "Baby Shelf" rules. As a result, the Company filed a new registration statement that provides for the sale of up to \$100 million of a variety of equity securities, including a new \$50 million ATM Equity Offering program.

During the three and nine months ended September 30, 2025 the Company sold 1,796,633 and 4,716,963 shares of its Class A common stock for net proceeds of \$8.9 million and \$20.9 million, respectively. As of September 30, 2025, \$29.1 million of our ATM Equity Offering program remained available for issuance.

Redemptions of LLC Interests

The BT HoldCo Operating Agreement provides that holders of LLC Interests may, from time to time, require the Company to redeem all or a portion of their LLC Interests for newly-issued shares of Class A common stock on a one-for-one basis. In connection with any redemption or exchange, the Company receives a corresponding number of LLC Interests, increasing its total ownership interest in BT HoldCo. Simultaneously, and in connection with a redemption, the corresponding number of shares of Class V common stock and Common BT HoldCo units are surrendered and cancelled. During the year ended December 31 2024, BT Assets exchanged 2,906,976 Class V shares. This exchange in 2024 resulted in a transfer of 4.3% ownership interest in BT HoldCo from BT Assets to the Company.

Up-C Restructuring

On May 30, 2025, the Company consummated the Up-C Restructuring in which 41,193,024 shares of the Company's Class V common stock were exchanged for 41,193,024 shares of the Company's Class M common stock. See Note 2a for discussion on Up-C Restructuring.

(15) Income Taxes

As noted in Note 2, in regards to the Up-C Restructuring, on May 30, 2025, the Company entered into and consummated the transactions contemplated by the Agreement and Merger Agreement with BT Assets, Mr. Brandon Mintz, the Company's Founder and Chief Executive Officer, BD Investment Holdings LLC, a Delaware limited liability company, BD Investment Holdings II LLC, a Delaware limited liability company, BT HoldCo, BCD Merger Sub LLC, a Delaware limited liability company and a direct wholly owned subsidiary of the Company, and BCD Merger Sub Inc., a Delaware corporation and a direct wholly owned subsidiary of the Company, resulting in, among other things, BT HoldCo becoming a wholly owned subsidiary of the Company, which is a C-Corporation for federal tax purposes. This transaction described above was stepped together as a single-tax-free reorganization pursuant to Section 368(a)(1)(A) for federal income tax purposes.

The effective tax rate for the nine months ended September 30, 2025 and 2024, respectively was (15.79%) and (16.52%). During the nine months ended September 30, 2025 and 2024, the Company recognized income tax (expense) of \$(5.6) millions and \$(0.5)

BITCOIN DEPOT INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(UNAUDITED)

million, respectively, on its share of pre-tax book income (loss), of which \$0.2 million and \$ 0.9 million was attributed to non-controlling interest.

BitAccess Inc. and Express Vending, Inc. are taxed as Canadian corporations. AUS BTM PTY LTD is taxed as an Australian corporation. For the nine months ended September 30, 2025, and 2024, there was no activity for Mintz Assets, Inc., BitAccess Inc. and Digital Gold. As such, there were no federal income taxes for these entities.

NZ BTM Ltd. is taxed as an New Zealand corporation. UK BTM LIMITED is taxed as a UK corporation. HK BTM LIMITED is taxed as a Hong Kong corporation. There was de minimis activities for these entities and thus no federal income taxes for these entities.

The effective tax rate differs from the statutory U.S. federal rate of 21.0% primarily due to the income or loss not being taxed due to the income and loss flowing through to its partners pre the Merger Agreement, differences related to the foreign operations, the recognition of the deferred balances of BT HoldCo from the Merger Agreement, release of valuation allowance for the Company's outside basis in BT HoldCo from the Merger Agreement, and the recognition of deferred balances of BT HoldCo post transaction and offset with valuation allowance release.

As of September 30, 2025, management determined based on applicable accounting standards and the weight of all available evidence, it was more likely than not that the Company will realize its deferred tax assets based on the Company's historical profitability. Additionally, the Company has released the previously established valuation allowance with respect to its deferred tax asset related to its investment in BT HoldCo as of September 30, 2025. As a result of the Up-C Restructuring, BT HoldCo's inside basis cumulative timing differences will shift to the Company and the outside basis differences at the Company would become the inside basis differences of BT HoldCo. The revaluation between the inside and outside basis difference of the cumulative temporary differences was booked as a discrete item through tax expense.

Additionally, the Company has an uncertain tax position of \$1.3 million due to state tax filings. The Company plans to settle open filings during 2025.

Tax Legislation

On July 4, 2025, President Donald Trump signed into law the reconciliation tax bill, commonly referred to as the "One Big Beautiful Bill Act" (OBBBA), which constitutes the enactment date under U.S. GAAP. Key corporate tax provisions of the OBBBA include the restoration of 100% bonus depreciation for property acquired and placed in service after January 19, 2025 and increases the Section 179 expensing limit, the introduction of new Section 174A permitting immediate expensing of domestic research and experimental (R&E) expenditures and the capability to accelerate the remaining unamortized domestic R&E costs from tax years 2022 through 2024, modifications to Section 163(j) interest expense limitations, updates to the rules governing global intangible low-taxed income (GILTI) and foreign-derived intangible income (FDII), amendments to energy credit provisions, and the expansion of Section 162(m) aggregation requirements.

Under U.S. GAAP, the effects of changes in tax laws are recognized in the period in which the new law is enacted. Accordingly, \$1.5 million tax expense was recorded in the Company's financial statements for the period ended September 30, 2025 to reflect the impact of the OBBBA. The Company will continue to evaluate the impact for future years and anticipates a reduction to our effective rates for cash taxes paid in years after fiscal 2025.

Tax Receivable Agreement

Upon the completion of the Merger, Bitcoin Depot is party to the Tax Receivable Agreement ("TRA"). Under the terms of that agreement, Bitcoin Depot generally will be required to pay BT Assets 85% of the tax savings, if any, that Bitcoin Depot Inc. realizes, or in certain circumstances is deemed to realize, as a result of certain tax attributes that are created as part of and after the Merger. The payment of cash consideration to BT Assets in connection with the transaction will result in aggregate payments under the TRA of approximately \$2.2 million as of March 31, 2025. This amount does not take into account any future exchanges of BT HoldCo Common Units by BT Assets pursuant to the BT HoldCo Amended and Restated Limited Liability Company Agreement. The future amounts payable, as well as the timing of any payments, under the TRA are dependent upon significant future events, including (but not limited to) the timing of the exchanges of BT HoldCo Common Units and surrender of a corresponding number of shares of Bitcoin Depot Class V common stock, the price of Bitcoin Depot Class A common stock at the time of each exchange, the extent to which such exchanges are taxable transactions, the depreciation and amortization periods that apply to any increase in tax basis

BITCOIN DEPOT INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(UNAUDITED)

resulting from such exchanges, the types of assets held by BT HoldCo, the amount and timing of taxable income Bitcoin Depot generates in the future, the U.S. federal income tax rate then applicable and the portion of Bitcoin Depot's payments under the TRA that constitute imputed interest or give rise to depreciable or amortizable tax basis. The Company has recognized a TRA liability of \$0.9 million on the Consolidated Balance Sheets as of December 31, 2023. Changes in this liability will be recognized in future periods through the other income/(expense) benefit caption on the Consolidated Statements of Income, the Company initially recorded \$0.7 million on September 30, 2023 through equity and an additional adjustment \$0.2 million was made on December 31, 2023, which was recorded to the income statement, for a total TRA of \$0.9 million.

Pursuant to the Company's election under Section 754 of the Internal Revenue Code (the "Code"), the Company expects to obtain an increase in its share of the tax basis in the net assets of BT HoldCo when units are redeemed or exchanged by the other members of BT HoldCo. The Company plans to make an election under Section 754 of the Code for each taxable year in which a redemption or exchange of BT HoldCo units occurs. The Company intends to treat any redemptions and exchanges of BT HoldCo units as direct purchases of the units for U.S. federal income tax purposes. These increases in tax basis may reduce the amounts that would otherwise be paid in the future to various tax authorities. They may also decrease gains (or increase losses) on future dispositions of certain capital assets to the extent tax basis is allocated to those capital assets.

On April 24, 2024, the Company acquired an aggregate of 2.9 million units in connection with an exchange with BT HoldCo (see Note 14), which resulted in an increase in the tax basis of its investment in BT HoldCo subject to the provisions of the Tax Receivable Agreement. The Company also recorded an additional liability of \$1.3 million for the TRA payments due to the redeeming members, representing 85% of the aggregate tax benefits the Company expects to realize from the tax basis increases related to the exchange of units, after concluding it was probable that such TRA payments would be paid based on estimates of future taxable income. No payments were made to the members of BT HoldCo pursuant to the Tax Receivable Agreement in 2024 or 2023.

On May 30, 2025, the Company and BT Assets agreed to terminate the Tax Receivable Agreement, dated as of June 30, 2023, by and among the Company, BT HoldCo and BT Assets. As consideration for the termination of the Tax Receivable Agreement, the Company made a cash payment to the former stockholders of BT Assets (including Mr. Mintz and his affiliated entities) in the amount of \$8.4 million. The Company derecognized the Tax Receivable Agreement to Additional paid-in capital as a result of the transaction being accounted for as a common control transaction. The Company currently has no Tax Receivable Agreement liability on the balance sheet.

(16) Share-Based Compensation

BitAccess:

BitAccess maintained a stock option plan for its employees under the Amended and Restated Stock Option Plan, (the "BitAccess Plan"). Pursuant to BitAccess Plan agreement, awards of stock options and restricted stock units ("BitAccess RSUs") were permitted to be made to employees and shareholders of BitAccess. As of September 30, 2025, all awards under the BitAccess Plan had been issued.

The options under the BitAccess Plan generally vest over a two-year period following the one-year anniversary of the date of grant and expire not more than 10 years from the date of grant.

Options

A summary of the BitAccess Plan's stock option activity and related information is as follows:

	Amount or number of options	Weighted-average exercise price	Weighted-average remaining contractual term	Weighted-average grant-date fair value
Outstanding at January 1, 2025	43,780	\$ 2.86	7.60	\$ 3.09

2023 Omnibus Incentive Plan

Pursuant to the Incentive Plan the Board is authorized to grant awards of Class A common Stock, incentive stock options, non-statutory stock options, RSUs, performance-based RSUs ("PSUs"), and restricted stock in an aggregate amount up to 6,029,445 shares of Class A common stock to eligible recipients, as defined in the Incentive Plan. The Company recognized \$2.2 million and \$3.3 million of share-based compensation expense during the three and nine months ended September 30, 2025, respectively. The Company recognized \$0.4 million and \$3.0 million of share-based compensation expense during the three and nine months ended September 30, 2024, respectively. Share-based compensation expense is included within selling and administrative expenses in the Consolidated Statements of Income.

PSUs

During the nine months ended September 30, 2025, the Company's Compensation Committee determined that the performance targets under the PSU awards granted in 2024 were not met, and therefore none of such PSUs vested. The Company had no unrecognized compensation expense associated with PSUs as of September 30, 2025.

Time-based RSUs

During the three and nine months ended September 30, 2025, the Company granted 251,298 and 1,936,351 time-based RSUs, respectively. During the three and nine months ended September 30, 2024, the Company granted 218,400 and 1,255,686 time-based RSUs, respectively. These RSUs generally vest one-third on the first anniversary of the grant date and in equal quarterly installments over the next two years.

For these time-based RSUs, the Company recognized stock-based compensation in the Consolidated Statement of Stockholders' (Deficit) Equity as Additional Paid-In Capital and stock-based compensation expense on the Consolidated Statements of Income during the three and nine months ended September 30, 2025 of \$0.7 million and \$1.7 million, respectively, and \$0.4 million and \$1.9 million during the three and nine months ended September 30, 2024, respectively. The Company had unrecognized compensation expense associated with time-based RSUs of \$4.0 million and \$2.4 million as of September 30, 2025 and December 31, 2024, respectively. RSU and PSU award activity for the nine months ended September 30, 2025 and 2024 is as follows:

	Number of RSUs	RSU Weighted-average grant date fair value
Outstanding at January 1, 2025	1,624,687	\$ 2.40

Outstanding at September 30, 2024	<u>1,776,391</u>	\$	2.45

(17) Net Income (Loss) Per Share

The Series A Preferred Stock have similar economic rights to the Class A common stock and management considers them to be in substance common shares for earnings per share (“EPS”) purposes. As a result, the weighted average Series A Preferred Stock outstanding during the period was included in the calculation of weighted average common stock outstanding. No other classes of shares with economic rights were outstanding during the period, and therefore, EPS was not presented for such classes. The Public and Private Warrants along with the BitAccess options were considered in diluted EPS under the treasury stock method, if dilutive. The Class E common stock represents earnout arrangements that are contingently issuable into Class A common stock, and are only considered in the calculation of EPS once the stock price milestones have been achieved. The non-controlling interest was considered in diluted EPS under the if-converted method, if dilutive.

The share-based compensation expense related to Class A shares has been attributed entirely to Bitcoin Depot Inc. for purposes of the net income (loss) per share calculation within the Consolidated Statements of Income. Additionally, for purposes of the net income (loss) per share calculation, because such amounts pertain to compensation expense that do not affect the net assets of BT HoldCo available for liquidation, they are not further attributed to the non-controlling interest holders under the HLBV method described in Note 11.

Management determined that EPS for periods prior to the Merger was not considered meaningful due to the complexities of determining the weighted average stock outstanding as a result of the recapitalization. Accordingly, the computation of loss per share and weighted average common stock outstanding has only been presented for the period from the date of transaction close through September 30, 2025, as follows (in thousands, except for share and net income (loss) per share amounts):

	Three Months Ended June 30, 2025	2024	Nine Months Ended September 30, 2025	2024
Numerator:				
Net income (loss) attributable to Bitcoin Depot Inc. - basic and diluted	\$ 5,544	\$ (941)	\$ 15,807	\$ (7,460)
Denominator:				
Weighted average common stock outstanding - basic and diluted	67,822,957	20,701,447	42,165,276	18,908,391
Net income (loss) per share - Bitcoin Depot Inc.	\$ 0.08	\$ (0.05)	\$ 0.37	\$ (0.39)

The following securities were not included in the computation of diluted shares outstanding because the effect would be anti-dilutive or issuance of such shares is contingent upon the satisfaction of certain conditions which were not satisfied by the end of the period:

	September 30, 2025	December 31, 2024
PubCo Warrants - Public and Private	43,848,750	43,848,750
PubCo Class E Common Stock - Earnouts Units	—	1,075,761
BT OpCo Exchangeable Non-Controlling Interest ^{(1) (2)}	—	44,093,024
BT OpCo Earnouts Units ⁽¹⁾	15,000,000	15,000,000
2023 Incentive Plan RSU awards	2,545,871	1,624,687

(1)Held at BT Assets and exchangeable into Class A common stock of the Company or cash upon the occurrence of certain conditions.

(2)Held at BT Assets and can be exchanged into Class A common stock of the Company.

BITCOIN DEPOT INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(UNAUDITED)

(18) Leases*Floorspace leases*

The Company has obligations as a lessee for floorspace. Generally, these lease arrangements meet the short-term lease criteria when the floorspace leases are cancellable by the Company upon notice of 30 days or less. Accordingly, for the leases that are cancellable, the Company has elected and applied the practical expedient that allows the Company to recognize short-term lease payments on a straight-line basis over the lease term on the Consolidated Statements of Income. For those floorspace leases that have a noncancellable term greater than 12 months, the Company records ROU assets and lease liabilities and presents them as operating leases. The Company recognized right of use assets and a lease liability of \$0.0 million for the three and nine months ended September 30, 2025, and \$2.2 million for the year ended December 31, 2024 as a result of the non-cash transaction related to floorspace operating leases.

Office space leases

The Company has obligations as a lessee for office space under a noncancellable lease arrangement that expires in May 2025, with options to renew up to five years. Payments due under the lease contracts include mainly fixed payments. The lease for the office space is classified as an operating lease in accordance with Topic 842.

BTM Kiosk leases

The Company has obligations as a lessee for BTM kiosks. The leases for the BTM kiosks are classified as finance leases in accordance with Topic 842 that expire on various dates through August 31, 2027. The BTM kiosk lease agreements are for two or three year terms and include various options to either renew the lease, purchase the kiosks or exercise a bargain option to purchase the kiosk at the end of the term. Certain finance leases are personally guaranteed by the CEO and contain guarantees for return of equipment by the CEO.

During the year ended December 31, 2024, the Company entered into lease agreements for the lease of 1,186 new BTMs. The leases have noncancellable lease terms ranging from 24 months to 36 months. The Company will acquire the assets for a bargain purchase price of \$1 at the end of their terms. Due to the bargain purchase option, the Company classified the new leases as a finance lease. The Company recognized right of use assets and a lease liability of \$3.4 million for the year ended December 31, 2024 as a result of the non-cash transaction related to the finance leases. No new BTM kiosk lease agreements have been entered into during the nine months ended September 30, 2025.

The components of the lease expense are as follows (in thousands, except lease term and discount rate figures):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2025	2024	2025	2024
Finance lease expense:				
Amortization of right-of-use-assets	\$ 351	\$ 884	\$ 1,076	\$ 3,469
Interest on lease liabilities	143	310	543	1,049

(19) Commitments and Contingencies

Litigation

From time to time in the regular course of its business, the Company is involved in various lawsuits, claims, investigations and other legal matters. Except as noted below, there are no material legal proceedings pending or known by the Company to be contemplated to which the Company is a party or to which any of its property is subject.

The Company believes that adequate provisions for resolution of all contingencies, claims and pending litigation have been made for probable losses that are reasonably estimable. These contingencies are subject to significant uncertainties and the Company is unable to estimate the amount or range of loss, if any, in excess of amounts accrued. The Company does not believe that the ultimate outcome of these actions will have a material adverse effect on its financial condition but could have a material adverse effect on its results of operations, cash flows or liquidity in a given quarter or year.

On January 13, 2023, Canaccord Genuity Corp. (“Canaccord”) commenced proceedings against the Company by filing a claim with the Superior Court of Justice in Toronto, Ontario which named Lux Vending, LLC and Bitcoin Depot LLC as the defendants.

BITCOIN DEPOT INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(UNAUDITED)

Canaccord is a financial services firm in Canada that the Company previously had hired to perform advisory services related to a potential initial public offering in Canada or sales transaction. The claim asserts that Lux Vending, LLC breached the contract by terminating the contract to avoid paying fees for their services and that Canaccord is entitled to \$23.0 million in damages equivalent to the fees alleged to be payable for breach of contract that would have been owed upon the closing of a transaction to acquire control, the sale of substantially all the Company's assets, or a merger transaction pursuant to the previously terminated engagement letter for advisory services. Canaccord proposes that the amount of fees would be calculated on the total cash transaction value of the business combination of \$880.0 million. The claim also seeks an award for legal and other costs relating to the proceeding.

In 2024 Canaccord added Bitcoin Depot Operating LLC as a defendant to account for the name change following the closing of the merger. Canaccord now estimates the total transaction value could be up to \$655.0 million.

Bitcoin Depot does not believe the allegations made against it are valid and intends to vigorously defend against them. The range of potential loss related to the identified claim is between \$0 and \$23.0 million, the amount of damages that Canaccord is seeking in the lawsuit. The additional costs mentioned in the claim are not able to be estimated at this time. The discovery phase of the litigation involving documentary productions and oral examinations is largely completed. A mediation of the dispute was held on April 14, 2025 and the parties did not agree on a resolution to the dispute and the matter is currently awaiting scheduling for a pre-trial conference and a trial.

On February 26, 2025, Lux Vending, LLC and Bitcoin Depot Operating, LLC (the "Company") were served with a civil complaint from the Attorney General of the State of Iowa (the "Iowa AG") in connection with a suit filed against us by the Iowa AG, on behalf of the state of Iowa, in the Iowa District Court for Polk County. The complaint alleges that both subsidiaries violated certain provisions of the Iowa Consumer Fraud Act as a result of Bitcoin withdrawals made from our ATMs being used by our customers to make payments under a variety of fraudulent schemes. The complaint further alleges that the defendants should have known that the purpose of these withdrawals was to make payment under such schemes and that the defendants should have taken additional steps to protect its customers. The complaint is seeking a preliminary and permanent injunction against the subsidiaries from either operating in Iowa or further violating the Iowa Consumer Fraud Act as well as monetary penalties. The IA AG has not sought or been granted injunctive relief. The Company filed its Answer on April 17, 2025. The Company served its discovery requests to the IA AG and the IA AG continues to produce documents. The IA AG recently served discovery requests on the Company on October 23, 2025.

On August 5, 2025, Bitcoin Depot, Inc. (the "Company") received notice that a class action lawsuit was filed in the U.S. District Court for the Northern District of Georgia. The complaint, brought by a Georgia resident on behalf of a proposed nationwide class and Georgia subclass, alleges that the Company failed to adequately safeguard, monitor, and protect the personally identifiable information ("PII") of approximately 27,000 customers, which was allegedly compromised in a data breach discovered in June 2024. At that time, law enforcement requested Bitcoin Depot not publicly disclose the data breach until it completed its investigation. In July 2025, law enforcement lifted its hold and Bitcoin Depot provided notice to the potentially impacted consumers.

The complaint asserts eight causes of action, including negligence, negligence per se (based on alleged violations of FTC guidelines), invasion of privacy, breach of implied contract, unjust enrichment, breach of fiduciary duty, and violations of Georgia's Uniform Deceptive Trade Practices Act and attorneys' fees statute. The plaintiff seeks actual and compensatory damages, equitable and injunctive relief, credit monitoring for at least three years, restitution, disgorgement, punitive damages, attorneys' fees, and class certification. On October 27, 2025, the Company filed a Motion to Dismiss the Plaintiff's Complaint in its entirety on several grounds including lack of standing, failure to allege concrete harm, and lack of causation.

In 2025, thirteen states have passed legislation to regulate use of virtual currency kiosks, with such legislation already in effect in twelve of these states. The remaining state will go into effect on January 1, 2026. We cannot predict the full impact these laws, or any similar pending or future legislation, may have on our financial condition or results of operations, nor can we predict the likelihood of such bills becoming law. The new laws are largely consistent with what was reported in our most recent 10-K, see Part I, Item 1A, "*Risk Factors - Risks Related to Government Regulation and Privacy Matters - The digital financial system is novel. As a result, policymakers are just beginning to consider what a regulatory regime for cryptocurrencies should look like and the elements that would serve as the foundation for such a regime. If we are unable to effectively react to future proposed legislation and regulation of cryptocurrencies or cryptocurrency businesses, our business, operating results, and financial condition could be adversely affected.*" in the Company's Annual Report on Form 10-K for the year ended December 31, 2024.

Financial and tax regulations

Legislation or guidance may be issued by U.S. and non-U.S. governing bodies, including the Financial Crimes Enforcement Network ("FinCEN") and the Internal Revenue Service ("IRS"), that may differ significantly from the Company's practices or interpretation of the law, which could have unforeseen effects on our financial condition and results of operations, and accordingly, the related impact

BITCOIN DEPOT INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(UNAUDITED)

on our financial condition and results of operations is not estimable. Prior to 2022, the IRS concluded an examination of the Company related to certain regulatory reporting requirements related to cryptocurrency sales to certain customers. Based on the outcome of the examination, the Company has concluded it is not probable that any fines or penalties will be assessed against the Company. As a result, no accrual has been recorded in the accompanying consolidated financial statements.

(20) Subsequent Events

On October 6, 2025, the Company entered into a securities purchase agreement with certain institutional investors pursuant to which the Company agreed to sell and issue in a registered direct offering 4,285,716 shares of the Company's Class A common stock, par value \$0.0001 per share, at a purchase price per share of \$3.50 per share. The offering closed on October 8, 2025.

Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations.

The following discussion and analysis provides information which Bitcoin Depot’s management believes is relevant to an assessment and understanding of consolidated results of operations and financial condition. You should read the following discussion and analysis of Bitcoin Depot’s financial condition and results of operations in conjunction with the unaudited consolidated financial statements and notes thereto contained in this Quarterly Report on Form 10-Q.

Certain information contained in this discussion and analysis or set forth elsewhere in this Quarterly Report on Form 10-Q, including information with respect to plans and strategy for Bitcoin Depot’s business, includes forward-looking statements that involve risks and uncertainties. As a result of many factors, including those factors set forth in “Risk Factors” and “Forward-Looking Statements Safe Harbor Statement,” our actual results could differ materially from the results described in or implied by the forward-looking statements contained in the following discussion and analysis. Unless the context otherwise requires, all references in this section to “we,” “us,” “our,” the “Company” or “Bitcoin Depot” refer to Bitcoin Depot Inc. and its subsidiaries.

Business Overview

Bitcoin Depot owns and operates the largest network of Bitcoin ATMs (“BTMs” or “BTM kiosks”) in North America where customers can buy and sell Bitcoin. Bitcoin Depot helps power the digital economy for users of cash.

Our mission is to bring Crypto to the Masses™. Digital means and systems dominate the way that consumers send money, make purchases, and invest; however, we believe that many people utilize cash as their primary means of initiating a transaction, either as a necessity or as a preference. These individuals have largely been excluded from the digital financial system and associated technological advancements in our global and digitally interconnected society. Bitcoin Depot’s simple and convenient process to convert cash into Bitcoin via our BTMs and BDCheckout out products, as supported by our feature-rich mobile app, enables not only these users, but also the broader public, to access the digital financial system. Our mobile app includes a buy online feature that connects consumers to a third-party service, Simplex powered by Nuvei, that allows consumers to buy Bitcoin without going to a kiosk or using BDCheckout.

Our BTMs offer one-way exchange of cash-to-Bitcoin. We also operate a leading BTM device and transaction processing system, BitAccess, which provides software and operational capabilities to third-party BTM operators, which generates software revenue for the Company.

In August 2025, we acquired the assets of Westcliff Technologies Inc. dba. National Bitcoin ATM (“NBATM”). The acquisition adds over 500 kiosks in 27 states to Bitcoin Depot’s network. Pursuant to the terms of the purchase agreement, the seller will continue to operate the purchased kiosks until they are converted to the Bitcoin Depot operating platform during the conversion period which is expected to last roughly three months from the transaction date. Unconverted kiosks with their associated revenues and expenses have been excluded from the Company’s results for the current quarter.

As of September 30, 2025, our offerings included approximately 9,276 BTMs in retail locations throughout the U.S., Canada and Australia, our BDCheckout product, which is accepted at approximately 16,345 retail locations, and our mobile app. We maintain a leading position among cash-to-Bitcoin BTM operators in the U.S. and Canada.

Kiosk Network and Retailer Relationships

Bitcoin Depot operates a network of kiosks that allow users to purchase Bitcoin with cash. Upon using a Bitcoin Depot kiosk for the first time, users will be prompted to provide certain information for account creation and verification. Users are required to select from three ranges of cash amounts to be inserted in the kiosk for purchasing Bitcoin. The user then provides the address of his or her digital wallet by scanning a QR code or manually inputting his or her unique wallet address; the user can create and use a Bitcoin Depot-branded wallet (un-hosted and non-custodial), or his or her own other existing digital wallet. Cash is then inserted by the user into the kiosk and the kiosk will confirm the dollar amount and other details of the transaction, including quantity of Bitcoin being purchased. Once the transaction is complete, the Bitcoin is electronically delivered to the user’s digital wallet and the user is provided with a physical receipt as well as a receipt via SMS text.

Bitcoin Depot’s largest BTM deployment as of September 30, 2025 is with Circle K, a convenience store chain of over 9,000 stores in North America and over 5,000 stores in Europe and other international markets. We are the exclusive provider and operator of BTMs for Circle K in the U.S. and Canada, and as of September 30, 2025 we have installed our BTMs in approximately 750 Circle K stores. We also have BTM kiosks deployed in other convenience stores, gas stations, grocery stores, pharmacies, and shopping malls.

Cryptocurrencies

Our revenues, \$498.8 and \$436.9 million for the nine months ended September 30, 2025 and 2024, respectively, have not been correlated to the price of Bitcoin historically, even in light of volatile Bitcoin prices. For example, our revenue during the trailing twelve months ended September 30, 2025 increased by 8.6% compared to the same period ended September 30, 2024, while the market price of Bitcoin increased by 87.5% during the same period. Based on our own user surveys, a majority of our users use our products and services for non-speculative purposes, including domestic and international remittances, online purchases, among others.

We use a sophisticated Bitcoin management process to reduce our exposure to volatility in Bitcoin prices by maintaining a relatively low balance (typically less than \$1.0 million) of Bitcoin at any given time specifically for revenue-generating operations, which we believe differentiates us from our competition. Our typical practice is to purchase Bitcoin through a liquidity provider such as Cumberland DRW or Abra. We replenish our Bitcoin only through purchases from leading Bitcoin liquidity providers and do not engage in any mining of Bitcoin ourselves. Our sophisticated replenishment process enables us to satisfy our users' Bitcoin purchases with our own Bitcoin holdings yet maintain relatively small balances of Bitcoin to effectively manage our principal risk related to our operations. There are two main components of the working capital required in our operations. On the Bitcoin side, we maintain Bitcoin in our hot wallets to fulfill orders from users while we are automatically placing orders with liquidity providers and exchanges to replenish the Bitcoin we have sold to users. The second component to working capital is the cash that accumulates in our BTM kiosks. As users insert cash into the BTM kiosks, cash accumulates until armored carriers collect the cash and process it back to our bank accounts. We typically maintain a variable level of cash in the BTM kiosks at all times. Cash in BTM kiosks as of September 30, 2025 was approximately 28.2% of average monthly revenues for the trailing twelve months ended September 30, 2025.

In June 2024, the Company began allocating a portion of its cash reserves to Bitcoin. As of September 30, 2025 and December 31, 2024, the Company held approximately \$11.4 million and \$0.6 million, respectively, of Bitcoin allocated to its treasury strategy.

Regulatory Environment

We operate internationally and in a rapidly evolving regulatory environment characterized by a heightened focus by regulators globally on all aspects of the payments industry, including countering terrorist financing, anti-money laundering, privacy, cybersecurity, and consumer protection. The laws and regulations applicable to us, including those enacted prior to the advent of digital payments, are continuing to evolve through legislative and regulatory action and judicial interpretation. New or changing laws and regulations, including changes to their interpretation and implementation, as well as increased penalties and enforcement actions related to non-compliance, could have a material adverse impact on our business, results of operations, and financial condition. It is also possible that the increased regulatory uncertainty could increase the cost of compliance due to tension with conflicting federal, state and local regulations, and could thus have a material adverse effect on our business, financial condition and results of operations.

Significant changes or developments in U.S. laws and policies, such as laws and policies surrounding international trade, foreign affairs, consumer protection, and environmental impact, among others, could materially adversely affect our business and financial condition. Furthermore, due to the overturning of the Chevron doctrine, which provided for judicial deference to regulatory agencies, we cannot be sure whether there will be increased challenges to existing federal agency regulations or how lower courts will apply the decision, which could impact regulation of financial institutions, environmental regulation, consumer protection, advertising, privacy, artificial intelligence, and other regulatory regimes with which we are required to comply in an unpredictable manner. Finally, we cannot predict how the slew of executive orders issued by the new presidential administration might impact our operations and financial condition, particularly given the likelihood of increasing legal challenges to these executive orders. For further discussion, see Part I, Item 1A, "Risk Factors" in the Company's Annual Report on Form 10-K for the year ended December 31, 2024.

In 2025, thirteen states have passed legislation to regulate use of virtual currency kiosks, with such legislation already in effect in twelve of these states. The remaining state will go into effect on January 1, 2026. We cannot predict the full impact these laws, or any similar pending or future legislation, may have on our financial condition or results of operations, nor can we predict the likelihood of such bills becoming law. The new laws are largely consistent with what was reported in our most recent 10-K, see Part I, Item 1A, "Risk Factors - Risks Related to Government Regulation and Privacy Matters - The digital financial system is novel. As a result, policymakers are just beginning to consider what a regulatory regime for cryptocurrencies should look like and the elements that would serve as the foundation for such a regime. If we are unable to effectively react to future proposed legislation and regulation of cryptocurrencies or cryptocurrency businesses, our business, operating results, and financial condition could be adversely affected." in the Company's Annual Report on Form 10-K for the year ended December 31, 2024.

Key Business Metrics

We monitor and evaluate the following key business metrics to measure performance, identify trends, develop and refine growth strategies and make strategic decisions. We believe these metrics and measures are useful to facilitate period-to-period comparisons of our business, and to facilitate comparisons of our performance to that of our competitors.

Table of Contents

Our key metrics are calculated using internal company data based on the activity we measure on our platform and may be compiled from multiple systems. While the measurement of our key metrics is based on what we believe to be reasonable methodologies and estimates, there are inherent challenges and limitations in measuring our key metrics internationally. The methodologies used to calculate our key metrics require judgment and we regularly review our processes for calculating these key metrics, and from time to time we may make adjustments to improve their accuracy or relevance.

	September 30	June 30 2025	March 31	December 31	Three Months Ended				September 30	June 30	March 31	December 31	September 30	June 30	March 31
					September 30 2024	June 30 2024	March 31 2024	December 31 2024	September 30 2023	June 30 2023	March 31 2023	December 31 2023	September 30 2022	June 30 2022	March 31 2022
Installed kiosks (at period end)	9,276	8,978	8,483	8,457	8,304	8,068	7,061	6,334	6,404	6,351	6,441				
Kiosks held with logistics providers	1,695	1,736	2,314	2,117	2,506	758	587	898	842	981	891

Median kiosk transaction size (in \$)	350	300	300	280	250	230	205	200	200	200	200				
Lifetime value	5,269	5,221	5,146	5,065	5,022	4,960	4,838	4,755	4,659	4,539	4,387				

Installed Kiosks

This metric provides an indicator of our market penetration, the growth of our business and our potential future business opportunities. We define installed kiosks as the number of kiosks installed at the end of the quarter in a retail location that are connected to our network. We monitor transaction volume at our kiosks on a continuous basis to maximize transaction volumes from each kiosk. Based on these monitoring activities, we may re-deploy certain of our kiosks, using third-party logistics providers, to new locations (e.g., those available with our new retail partners) that we believe will maximize transaction volumes and revenues.

Kiosks Held with Logistics Providers

This metric includes kiosks held with our logistics providers, the manufacturer, or kiosks that are in-transit to new locations, which we believe will result in higher transaction volume and revenue per kiosk once deployed.

Returning User Transaction Count

This metric provides an indicator of user retention and our competitive advantage relative to our peers, as well as the trajectory of cryptocurrency adoption, and allows us to make strategic decisions. We define returning user transaction count as the average number of aggregate transactions completed at any kiosk in the four quarters trailing the quarter in which a given user's first transaction occurred, measured only for users who complete more than one transaction. For example, as of September 30, 2025, users who first transacted at one of our kiosks during the three months ended September 30, 2024 and who subsequently completed a second transaction completed an average of 5.6 transactions over the twelve months following their initial transaction.

New User Count

This metric Provides an indication of the effectiveness of our advertising and marketing efforts. We define new user count as the number of users who complete their first transaction during the quarter reported.

Median Kiosk Transaction Size

This metric provides information to analyze user behavior as well as evaluate our performance and formulate financial projections. We calculate median kiosk transaction size based on the dollar value of all purchases and sales of Bitcoin at our kiosks, including transaction fees, during the rolling twelve month period.

Lifetime Value

This metric provides information to analyze user behavior as well as evaluate our performance and formulate financial projections. We define customer lifetime value as the average cumulative dollar value of all purchases by users acquired from inception through the current quarter. For example, as of September 30, 2025, users who have completed at least one transaction between 2016 and September 30, 2025 have transacted a total of \$5,269 on average.

Segment Reporting

Our financial reporting is organized into one segment. We make specific disclosures concerning our products and services because such disclosure facilitates our discussion of trends and operational initiatives within our business and industry. Our products and

services are aggregated and viewed by management as one reportable segment due to the similarity in the nature of the customers and overall economic characteristics, the nature of the products and services provided and the applicable regulatory environment.

Components of Results of Operations

Revenue

We generate substantially all of our revenue from the cash paid by customers to purchase Bitcoin from our kiosks. For example, approximately 99.8% of our revenue in the three months ended September 30, 2025 was derived from the sale of our cryptocurrency, including the markup at which we sell cryptocurrency to users (which can vary between BDCheckout and BTM kiosks) and a separate flat transaction fee. These user-initiated transactions are governed by terms and conditions agreed to at the time of each point-of-sale transaction and do not extend beyond the transaction.

For the periods presented, the markup percentage for BTM kiosk transactions ranged between 15% and 50%, of the USD amount of the transaction with such markup rates historically having been, and continuing to be, subject to fluctuation as a result of our ongoing price strategy testing. The markup percentage for BDCheckout transactions has been 15% since the rollout of this type of transaction in 2022. Finally, the Company receives a commission as a percentage for our website transactions which was 12% through September 30, 2025. Markup percentages are determined by examining user transaction patterns in various geographic locations, based on ongoing markup rate testing, with the ultimate aim of optimizing profitability, growth and user base.

For each Bitcoin transaction on our kiosks and within BDCheckout, the cryptocurrency price displayed to users includes the exchange rate at which we sell Bitcoin to users as well as a separate flat transaction fee. As of September 30, 2025, we charge (i) a flat \$3.00 fee on all transactions at BTM kiosks, which generally corresponds to the costs underlying such transactions and (ii) a flat \$3.50 fee on BDCheckout transactions, which is what our payment provider, InComm, charges us to facilitate transactions using InComm's network.

Cost of revenue (excluding depreciation and amortization)

Our cost of revenue (excluding depreciation and amortization), which is primarily driven by transaction volume, consists primarily of direct costs related to selling Bitcoin and operating our network of kiosks. Cost of revenue (excluding depreciation and amortization) includes the cost of Bitcoin, fees paid to obtain Bitcoin, gains on sales of Bitcoin on an exchange, fees paid to operate the software on the BTMs, rent paid for floorspace for BTMs, fees paid to transfer Bitcoin to users, cost of BTM repair and maintenance, and the cost of armored trucks to collect and transport cash deposited into the BTMs.

Our costs associated with a BDCheckout transaction are lower than costs associated with a BTM transaction, primarily due to significantly greater operating expenses associated with the BTMs, including cash collection fees and short-term lease payments to the retail locations where the kiosks are placed. However, the profitability of the two services is similar because of the higher markup that Bitcoin Depot applies to BTM transactions to support the higher costs associated therewith.

Operating expenses

Operating expenses consist of selling, general and administrative expenses and depreciation and amortization.

Selling, general and administrative expenses consist primarily of expenses related to our customer support, marketing, finance, legal, compliance, operations, human resources, and administrative personnel. Selling, general and administrative expenses also include costs related to fees paid for professional services, including legal, tax, and accounting services.

Depreciation and amortization include depreciation on computer hardware and software, BTMs (including both BTMs owned by us and those subject to finance leases), office furniture, equipment and leasehold improvements and amortization of intangible assets.

Other income (expense)

Other income (expense) includes interest expense, the impact of lease modifications, gains and losses on Bitcoin treasury investment holdings, and gains and losses on foreign currency transactions.

Interest expense consists primarily of the interest expense on our borrowings and our finance leases and loss on extinguishment of debt.

Results of Operations

Comparison between Three Months Ended September 30, 2025 and Three Months Ended September 30, 2024

The following table sets forth selected historical operating data for the periods indicated (unaudited):

<i>(in thousands)</i>	2025	Three Months Ended September 30, 2024		\$ Change	% Change
Statements of Income Information:					
Revenue	\$ 162,482	\$ 135,271	\$ 27,211		20.1%
Cost of revenue (excluding depreciation and amortization reported separately below)	132,357	112,853	19,504		17.3%
Operating expenses					
Selling, general and administrative	16,443	14,694	1,749		11.9%
Depreciation and amortization	1,900	2,245	(345)		(15.4)%
Total operating expenses	18,343	16,939	1,404		8.3%
Income from operations	11,782	5,479	6,303		115.0%
Other income (expense)					
Interest (expense)	(4,133)	(2,907)	(1,226)		42.2%
Other income	905	103	802		778.6%
(Loss) on foreign currency transactions	(25)	(29)	4		(13.8)%
Income before provision for income taxes and non-controlling interest	8,529	2,646	5,883		222.3%
Income tax expense	(3,042)	(347)	(2,695)		776.7%
Net income	\$ 5,487	\$ 2,299	\$ 3,188		138.7%
Net (loss) income attributable to non-controlling interest	\$ (57)	\$ 3,238	\$ (3,295)		(101.8)%
Net income (loss) attributable to common stockholders	\$ 5,544	\$ (939)	\$ 6,483		(690.4)%

Revenue

Revenue increased by \$27.2 million, or 20.1% for the three months ended September 30, 2025 as compared to the three months ended September 30, 2024 primarily due to an increase in total kiosks in operation during 2025, and an increase in the median transaction size.

Cost of revenue (excluding depreciation and amortization)

Cost of revenue (excluding depreciation and amortization) increased by \$19.5 million, or 17.3% for the three months ended September 30, 2025, as compared to the three months ended June 30, 2024, primarily due to the increase in transaction volume.

The following table sets forth the components of the cost of revenue (excluding depreciation and amortization) for the periods indicated:

<i>(in thousands)</i>	Three Months Ended September 30, 2025		2024	\$ Change	% Change
Cryptocurrency Expenses	\$ 116,318	\$ 97,555	\$ 18,763		19.2%
Floorspace Leases	9,804	10,007	(203)		(2.0)%
Kiosk Operations	6,235	5,291	944		17.8%
Total of Cost of Revenue (excluding Depreciation and Amortization)	<u>\$ 132,357</u>	<u>\$ 112,853</u>	<u>\$ 19,504</u>		<u>17.3%</u>

Floorspace Leases

Our floorspace lease expenses decreased by \$0.2 million, or 2.0% for the three months ended September 30, 2025, as compared to the three months ended September 30, 2024. The decrease was due to more favorable lease terms on leases in the third fiscal quarter of 2025 compared to the same quarter in 2024.

Kiosk Operations

Our kiosk operations costs increased by \$0.9 million or 17.8% for the three months ended September 30, 2025, as compared to the three months ended September 30, 2024. Our kiosk operations consisted of armored cash collection, bank fees, software costs, insurance and repair and maintenance. The increase in kiosk operations costs was attributable to the growth in active kiosks deployed in 2025 as compared to the same period of the prior year.

Operating expenses

Selling, general and administrative expenses increased by \$1.7 million, or 11.9% for the three months ended September 30, 2025, as compared to the three months ended September 30, 2024. The increase was driven by higher share-based compensation and indirect taxes incurred in the third quarter of 2025 compared to the same period in 2024.

Other (expense) income

Other expense increased by \$0.4 million for the three months ended September 30, 2025 as compared to the three months ended September 30, 2024, primarily driven by increased interest expense, partially offset by the recognition of a \$0.7 million unrealized gain on Bitcoin held for investment.

Comparison between Nine Months Ended September 30, 2025 and Nine Months Ended September 30, 2024

The following table sets forth selected historical operating data for the periods indicated (unaudited):

<i>(in thousands)</i>	2025	Nine Months Ended September 30, 2024	\$ Change	% Change
Statements of Income Information:				
Revenue	\$ 498,816	\$ 436,876	\$ 61,940	14.2%
Cost of revenue (excluding depreciation and amortization reported separately below)	402,830	370,848	31,982	8.6%
Operating expenses				
Selling, general and administrative	44,992	44,062	930	2.1%
Depreciation and amortization	5,666	8,184	(2,518)	(30.8)%
Total operating expenses	50,658	52,246	(1,588)	(3.0)%
Income from operations	45,328	13,782	31,546	228.9%
Other income (expense)				
Interest (expense)	(11,927)	(10,731)	(1,196)	11.1%
Other income	2,145	143	2,002	1,400.0%
Income (loss) on foreign currency transactions	95	(294)	389	(132.3)%
Income (loss) before provision for income taxes and non-controlling interest	35,641	2,900	32,741	1,129.0%
Income tax expense	(5,656)	(479)	(5,177)	1,080.8%
Net income	\$ 29,985	\$ 2,421	\$ 27,564	1,138.5%
Net income attributable to non-controlling interest	14,178	7,459	6,719	90.1%
Net income (loss) attributable to common stockholders	<u>\$ 15,807</u>	<u>\$ (5,038)</u>	<u>\$ 20,845</u>	<u>(413.8)%</u>

Revenue

Revenue increased by \$61.9 million, or 14.2% for the nine months ended September 30, 2025 as compared to the nine months ended September 30, 2024, primarily due to an increase in total kiosks in operation during 2025, and an increase in the median transaction size.

Cost of revenue (excluding depreciation and amortization)

Cost of revenue (excluding depreciation and amortization) increased by \$32.0 million, or 8.6% for the nine months ended September 30, 2025, as compared to the nine months ended September 30, 2024, primarily due to the increase in transaction volume.

The following table sets forth the components of the cost of revenue (excluding depreciation and amortization) for the periods indicated:

<i>(in thousands)</i>	Nine Months Ended September 30,			
	2025	2024	\$ Change	% Change
Cryptocurrency Expenses	\$ 356,826	\$ 327,778	\$ 29,048	8.9%
Floorspace Leases	28,934	27,663	1,271	4.6%
Kiosk Operations	17,070	15,407	1,663	10.8%
Total Cost of Revenue (excluding Depreciation and Amortization)	<u>\$ 402,830</u>	<u>\$ 370,848</u>	<u>\$ 31,982</u>	8.6%

Floorspace Leases

Our floorspace lease expenses increased by \$1.3 million, or 4.6% for the nine months ended September 30, 2025, as compared to the nine months ended September 30, 2024. The increase was attributable to the growth in active kiosks deployed in 2025 as compared to the same period of the prior year.

Kiosk Operations

Our kiosk operations costs increased by \$1.7 million or 10.8% for the nine months ended September 30, 2025, as compared to the nine months ended September 30, 2024. Our kiosk operations consisted of armored cash collection, bank fees, software costs, insurance and repair and maintenance. The increase in kiosk operations costs was attributable to the growth in active kiosks deployed in 2025 as compared to the same period of the prior year.

Operating expenses

Selling, general and administrative expenses increased by \$0.9 million, or 2.1% for the nine months ended September 30, 2025, as compared to the nine months ended September 30, 2024. The increase was primarily driven by higher legal services expenses in the nine months of 2025 compared to the same period in 2024.

Other (expense) income

Other expenses decreased by \$1.2 million for the nine months ended September 30, 2025 as compared to the nine months ended September 30, 2024, primarily driven by the recognition of a \$1.9 million unrealized gain on Bitcoin held for investment, partially offset by higher interest expense.

Liquidity and Capital Resources

At September 30, 2025, we had working capital of approximately \$37.1 million, which included cash and cash equivalents and other current assets of approximately \$79.2 million, offset by accounts payable and other current liabilities of approximately \$42.1 million. We reported net income of approximately \$30.0 million during the nine months ended September 30, 2025.

At December 31, 2024, we had negative working capital of approximately \$(6.3) million, which included cash and cash equivalents and other current assets of approximately \$34.3 million, offset by accounts payable and other current liabilities of approximately \$40.6 million.

During the nine months ended September 30, 2025 and September 30, 2024, we had positive cash flow from operations of \$33.0 million and \$17.3 million, respectively.

We believe our existing cash and cash equivalents, together with cash provided by operations, will be sufficient to meet our needs for at least the next 12 months.

Our future capital requirements will depend on many factors including our revenue growth rate, the timing and extent of spending to support research and development efforts and the timing and extent of additional capital expenditures to purchase additional kiosks and invest in the expansion of our products and services. We may in the future enter into arrangements to acquire or invest in complementary businesses, products and technologies, including intellectual property rights. We may be required to seek additional equity or debt financing. If additional financing is required from outside sources, we may not be able to do so on acceptable terms or

at all. If we are unable to raise additional capital when desired, our business, results of operations and financial condition would be materially and adversely affected.

Non-GAAP Financial Measures

Adjusted Gross Profit

We define Adjusted Gross Profit (a non-GAAP financial measure) as revenue less cost of revenue (excluding depreciation and amortization) and depreciation and amortization adjusted to add back depreciation and amortization. We believe Adjusted Gross Profit provides useful information to investors and others in understanding and evaluating our results of operations, as well as provides a useful measure for period-to-period comparisons of our business performance. Moreover, we have included Adjusted Gross Profit in this Quarterly Report on Form 10-Q because it is a key measurement used internally by management to measure the efficiency of our business. This non-GAAP financial measure should not be considered in isolation from, or as a substitute for, financial information prepared in accordance with U.S. GAAP. We compensate for these limitations by relying primarily on U.S. GAAP results and using Adjusted Gross Profit on a supplemental basis. Our computation of Adjusted Gross Profit may not be comparable to other similarly titled measures computed by other companies because not all companies calculate this measure in the same fashion. You should review the reconciliation of Gross Profit to Adjusted Gross Profit below and not rely on any single financial measure to evaluate our business.

The following table presents a reconciliation of revenue to Adjusted Gross Profit for the periods indicated (unaudited):

<i>(in thousands)</i>	Three Months Ended September 30,		Nine Months Ended September 30,	
	2025	2024	2025	2024
Revenue	\$ 162,482	\$ 135,271	\$ 498,816	\$ 436,876
Cost of revenue (excluding depreciation and amortization)	(132,357)	(112,853)	(402,830)	(370,848)
Depreciation and amortization excluded from cost of revenue	(1,894)	(2,233)	(5,647)	(8,090)
Gross Profit	\$ 28,231	\$ 20,185	\$ 90,339	\$ 57,938
Adjustments:				
Depreciation and amortization excluded from cost of revenue	\$ 1,894	\$ 2,233	\$ 5,647	\$ 8,090
Adjusted Gross Profit	\$ 30,125	\$ 22,418	\$ 95,986	\$ 66,028
Gross Profit Margin ⁽¹⁾	17.4 %	14.9 %	18.1 %	13.3 %
Adjusted Gross Profit Margin ⁽¹⁾	18.5 %	16.6 %	19.2 %	15.1 %

(1) Calculated as a percentage of revenue.

Adjusted EBITDA

We define Adjusted EBITDA (a non-GAAP financial measure) as net income before interest expense, tax expense, depreciation and amortization, non-recurring expenses, unrealized gains and losses on cryptocurrency held for investment (as a result of adopting ASU 2023-08 on January 1, 2025), share-based compensation, and miscellaneous cost adjustments.

These items are excluded from Adjusted EBITDA because these items are non-cash in nature, or because the amount and timing of these items is unpredictable, not driven by core results of operations and renders comparisons with prior periods and competitors less meaningful. We believe Adjusted EBITDA provides useful information to investors and others in understanding and evaluating our results of operations, as well as provides a useful measure for period-to-period comparisons of our business performance. Moreover, we have included Adjusted EBITDA in this Quarterly Report on Form 10-Q because it is a key measurement used internally by management to make operating decisions, including those related to operating expenses, evaluate performance and perform strategic and financial planning. However, you should be aware that when evaluating Adjusted EBITDA, we may incur future expenses similar to those excluded when calculating these measures. The presentation of this measure should not be construed as an inference that our future results will be unaffected by unusual or non-recurring items. Further, this non-GAAP financial measure should not be considered in isolation from, or as a substitute for, financial information prepared in accordance with U.S. GAAP. We compensate for these limitations by relying primarily on U.S. GAAP results and using Adjusted EBITDA on a supplemental basis. Our computation of Adjusted EBITDA may not be comparable to other similarly titled measures computed by other companies because not all companies calculate this measure in the same fashion. You should review the reconciliation of net income to Adjusted EBITDA below and not rely on any single financial measure to evaluate our business.

The following table presents a reconciliation of net income to Adjusted EBITDA for the periods indicated (unaudited):

<i>(in thousands)</i>	Three Months Ended September 30,		2025		2024		Nine Months Ended September 30,		2025		2024	
Net income	\$		5,487	\$	2,299	\$	29,985	\$	2,421			
Adjustments:												
Interest expense			4,275		2,907		12,069		10,731			
Income tax expense			3,042		347		5,656		479			
Depreciation and amortization			1,900		2,245		5,666		8,184			
Unrealized loss on cryptocurrency held for investment			(690)		—		(1,911)		—			
Non-recurring expenses ⁽¹⁾			4		297		286		1,204			
Interest (income)			(142)		—		(142)		—			
Share-based compensation			2,185		412		3,257		3,037			
Special bonus			—		675		—		675			
Adjusted EBITDA	\$		16,061	\$	9,182	\$	54,866	\$	26,731			
Adjusted EBITDA margin ⁽²⁾			9.9%		6.8%		11.0%		6.1%			

(1)Composed of non-recurring professional service fees related to the merger.

(2)Adjusted EBITDA margin is defined as Adjusted EBITDA divided by revenue. The Company uses this measure to evaluate its overall profitability.

Sources of Liquidity

Credit Agreement

On June 23, 2023, the Company amended and restated its credit agreement (the "Amended and Restated Note") with its existing lender. Under the Amended and Restated Note, the Company refinanced \$20.8 million of the note which is subject to an annual interest at a rate of 17% per annum. The Company is required to make monthly interest payments and fixed principal payments every six months beginning on December 15, 2023 through June 15, 2026. In connection with the Amended and Restated Note, the Company repaid approximately \$16.4 million of the outstanding principal balance, refinanced \$20.8 million of the outstanding principal balance and paid an exit fee of \$2.3 million. The Amended and Restated Note matures on June 23, 2026, at which time, any outstanding principal balance and any accrued interest become due. Additionally, the Company is required to pay an exit fee of \$1.8 million upon maturity or prepayment and accordingly, has included this amount in the note payable, non-current in the Consolidated Balance Sheet. In conjunction with the transaction, Legacy Bitcoin Depot and BT Assets, Inc. were substituted for BT OpCo and BT HoldCo, LLC respectively. The Amended and Restated Note is collateralized by substantially all of the assets of BT HoldCo, LLC and Mintz Assets, Inc., Express Vending, Inc., Intuitive Software, LLC, Digital Gold Ventures, Inc. and BitAccess Inc. The Company is subject to certain financial covenants contained in the Amended and Restated Note, which require BT HoldCo and certain of its subsidiaries to maintain certain cash balances, and a maximum consolidated total leverage ratio, in addition to customary administrative covenants. The Company accounted for the Amended and Restated Note as a debt modification in accordance with ASC 470, *Debt*.

On March 26, 2024, the Company entered into an amendment to the Amended and Restated Note dated June 23, 2023 (the "Second Amended and Restated Note") to provide an additional \$15.7 million in principal financing. This amendment increased the aggregate principal amount of the term loan facility to \$35.6 million which consists of \$19.9 million outstanding under the original loan and \$15.7 million in additional principal resulting in net cash flow of \$15.2 million related to the amendment. The Company accounted for the Second Amended and Restated Note as an extinguishment of debt in accordance with ASC 470, *Debt*. As such, the Company recognized the outstanding deferred financing costs of \$3.2 million as a loss on extinguishment of debt in interest expense on the Consolidated Statements of Income which consisted of a \$2.7 million write off unamortized deferred loan costs and \$0.5 million in loan origination fees related to the amendment.

On March 14, 2025, the Company entered into an amendment to the Second Amended and Restated Note ("Amendment No.1 of the Second Amended and Restated Note"). Pursuant to Amendment No.1 of the Second Amended and Restated Note, the maturity date of the loans was extended from June 23, 2026 to December 15, 2027 and the amortization schedule was revised to reflect the extended maturity date.

We began entering into kiosk franchise profit sharing arrangements in 2024. Under the terms of the agreements, the third parties receive a share in the profits generated by a group of specifically identified kiosks for a specified period of time with the consideration received up front. During the nine months ended September 30, 2025, we entered into five kiosk franchise profit sharing

arrangements. We recorded debt of \$20.7 million during the nine months ended September 30, 2025, as a result of these franchise profit sharing arrangements, maturing in March, April, June and August of 2033, with principal and interest paid monthly via profit sharing payments. We did not enter into any new kiosk franchise profit sharing arrangements during the three months ended September 30, 2025.

Cash Flows

The following table presents the sources of cash and cash equivalents for the periods indicated (in thousands):

	Nine Months Ended September 30,	
	2025	2024
Cash provided by operating activities	\$ 33,033	\$ 17,253
Cash (used in) investing activities	\$ (13,240)	\$ (10,506)
Cash provided by (used in) financing activities	\$ 10,212	\$ (4,312)
Net increase in cash and cash equivalents (1)	\$ 29,794	\$ 2,470

(1) Includes effect of exchange rate changes on cash.

Operating Activities

Net cash provided by operating activities increased \$15.8 million for the nine months ended September 30, 2025, as compared to the nine months ended September 30, 2024, primarily due to a \$27.6 million increase in net income driven by improved gross margin in 2025.

Investing Activities

Net cash used in investing activities increased \$2.7 million for the nine months ended September 30, 2025, as compared to the nine months ended September 30, 2024, primarily due to a \$7.9 million increase in acquisition of BTC investment.

Financing Activities

Net cash provided by financing activities increased \$14.5 million for the nine months ended September 30, 2025, as compared to the nine months ended September 30, 2024, primarily due to a \$20.8 million increase in proceeds from equity sales and a \$12.6 million decrease in distributions, offset by a \$9.8 million increase in payments on notes payable and \$9.1 million paid in connection with the Up-C transaction.

Commitments and Contractual Obligations

As of September 30, 2025, the aggregate amount of our operating and finance lease obligations was approximately \$5.0 million. As of September 30, 2025, we had no open purchase orders for kiosks.

See Note 13 to our unaudited consolidated financial statements included in Part I, Item 1 of this Quarterly Report on Form 10-Q for additional information about our notes payable.

See Note 15 to our unaudited consolidated financial statements included in Part I, Item 1 of this Quarterly Report on Form 10-Q for additional information about our tax receivable agreement.

See Note 18 to our unaudited consolidated financial statements included in Part I, Item 1 of this Quarterly Report on Form 10-Q for additional information about our leases.

Litigation

From time to time in the regular course of our business, we are involved in various lawsuits, claims, investigations and other legal matters. Except as noted below, there are no material legal proceedings pending or known by us to be contemplated to which we are a party or to which any of our property is subject to.

See Note 18 to our unaudited consolidated financial statements included in Part I, Item 1 of this Quarterly Report on Form 10-Q for additional information about our material commitments and contingencies, including litigation.

We believe that adequate provisions for resolution of all contingencies, claims and pending litigation have been made for probable losses that are reasonably estimable. These contingencies are subject to significant uncertainties and we are unable to estimate the amount or range of loss, if any, in excess of amounts accrued. We do not believe that the ultimate outcome of these actions will have a material adverse effect on our financial condition but could have a material adverse effect on our results of operations, cash flows or liquidity in a given quarter or year.

Off-Balance Sheet Arrangements

None.

Recently Issued Accounting Standards

Accounting Pronouncement Adopted

In November 2023, the FASB issued ASU 2023-07 "*Segment Reporting (Topic 280): Improvements to Reportable Segment Disclosures*". The amendments require entities to disclose significant segment expenses impacting profit and loss that are regularly provided to the CODM. In addition, the amendments enhance interim disclosure requirements, clarify circumstances in which an entity can disclose multiple segment measures of profit or loss, provide new segment disclosure requirements for entities with a single reportable segment, and contain other disclosure requirements. The update is required to be applied retrospectively to prior periods presented, based on the significant segment expense categories identified and disclosed in the period of adoption. The amendments are required to be adopted for fiscal years beginning after December 15, 2023, and interim periods within fiscal years beginning after December 15, 2024 with early adoption permitted. The Company adopted this accounting standard effective January 1, 2024, which resulted in additional segment disclosures primarily related to significant expenses that are regularly provided to the CODM.

In December 2023, the FASB issued ASU 2023-08 "*Intangibles—Goodwill and Other—Crypto Assets (Subtopic 350-60) Accounting for and Disclosure of Crypto Assets*". ASU 2023-08 requires entities to measure crypto assets that meet the scope criteria at fair value and to reflect changes in fair value in net income each reporting period. The amendments in ASU 2023-08 also require entities to present crypto assets measured at fair value separately from other intangible assets on the balance sheet and changes in the fair value measurement of crypto assets separately from changes in the carrying amounts of other intangible assets on the income statement. The amendments in the ASU are effective for all entities for fiscal years beginning after December 15, 2024, including interim periods within those fiscal years. Early adoption is permitted for both interim and annual financial statements that have not yet been issued or made available for issuance. We adopted the new accounting standard on a modified retrospective approach effective January 1, 2025.

In December 2023, the FASB issued ASU No. 2023-09 "*Improvements to Income Tax Disclosures (Topic 740)*". The ASU requires companies to break out their income tax expense, income tax rate reconciliation and income tax payments made in more detail. For public companies, the requirements will become effective for fiscal years beginning after December 15, 2024, with early adoption permitted. The Company adopted this accounting standard, effective January 1, 2025, with no impact on interim financial statements.

Accounting Pronouncement Pending Adoption

In October 2023, the FASB issued ASU 2023-06 "*Disclosure Improvements: Codification Amendments in Response to the SEC's Disclosures Update and Simplification Initiative*". The guidance amends certain disclosure and presentation requirements related to the statement of cash flows, accounting changes and error corrections, earnings per share, interim reporting, commitments, debt, equity, derivatives, transfers and services and various industry specific guidance. For entities subject to the SEC's existing disclosure requirements, the effective date for each amendment will be the date on which the SEC's removal of that related disclosure from Regulation S-X or Regulation S-K becomes effective. However, if by June 30, 2027, the SEC has not removed the existing disclosure requirements, the amendments will not become effective. Early adoption is not permitted. The Company is still assessing the impacts to its consolidated financial statements.

In November 2024, the FASB issued ASU 2024-03. "Income Statement - Reporting Comprehensive Income - Expense Disaggregation Disclosures (Subtopic 220-40)". The ASU requires expanded disclosures and disaggregation of certain expenses included within the income statement. The amendments become effective for annual reporting periods beginning after December 15, 2026, and interim periods beginning after December 15, 2027, with early adoption permitted. The Company is still assessing the impacts of this guidance on its consolidated financial statements.

In May 2025, the FASB issued ASU 2025-03, "*Business Combinations (Topic 805) and Consolidation (Topic 810): Determining the Accounting Acquirer in the Acquisition of a Variable Interest Entity*". The ASU eliminates the presumption that the primary beneficiary of a VIE is automatically the accounting acquirer when a VIE business is obtained primarily through an exchange of equity interests. ASU 2025-03 becomes effective for annual reporting periods beginning after December 15, 2026 and is to be applied prospectively. Early adoption is permitted. The Company is still assessing the impacts to its consolidated financial statements.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

We are exposed to market risk during the normal course of business from changes in foreign currency exchange rates and interest rates. The exposure to these risks is managed through normal operating and financing activities. There have been no material changes to the market risks we are exposed to from those noted in our Annual Report on Form 10-K for the year ended December 31, 2024.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

With the participation of the Company's principal executive officer and principal financial officer, management evaluated the effectiveness of the Company's disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act), as of September 30, 2025. Based on their evaluation, the Company's principal executive officer and principal financial officer concluded that the Company's disclosure controls and procedures were not effective as of September 30, 2025 to provide reasonable assurance that information required to be disclosed by the Company in reports filed or submitted under the Exchange Act is (i) recorded, processed, summarized and reported within the time periods specified in the United States Securities and Exchange Commission's ("SEC") rules and forms and (ii) accumulated and communicated to the Company's management, including its Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure, solely as a result of the material weaknesses in our internal control over financial reporting below.

Material Weaknesses in Internal Control Over Financial Reporting

In connection with the preparation of the Company's consolidated financial statements as of December 31, 2024, management identified material weaknesses in its internal control over financial reporting. A material weakness is a deficiency, or a combination of deficiencies, in internal control over financial reporting such that there is a reasonable possibility that a material misstatement of annual or interim financial statements will not be prevented, or detected and corrected, on a timely basis. The material weaknesses identified relates to (i) the fact that the Company did not have formalized system of internal control over financial reporting in place to ensure that risks are properly assessed, controls are properly designed and implemented and internal controls are properly monitored and functioning, (ii) the Company's reliance on IT systems and the use of service organizations to initiate, process, and record transactions, for which it did not evaluate or test the respective control objectives and data provided by the service organizations, and did not maintain a sufficient complement of formally documented general IT controls over access, segregation of duties, security, and change management, and (iii) the Company having insufficient controls in place to prevent potential unauthorized activity related to cryptocurrencies. Management has concluded that these material weaknesses arose because, the Company did not have the necessary business processes, personnel and related internal controls necessary to satisfy the accounting and financial reporting requirements of a public company.

Effective internal controls are necessary to provide reliable financial reports and prevent fraud, and material weaknesses could limit the ability to prevent or detect a misstatement of accounts or disclosures that could result in a material misstatement of annual or interim financial statements. To address the material weaknesses, the Company will need to add personnel as well as implement additional financial reporting processes and related internal controls. Management intends to continue to take steps to remediate the material weaknesses described above through hiring additional qualified accounting and financial reporting personnel, further enhancing their accounting processes and risk assessment, and by designing, implementing and monitoring the respective controls. Management will not be able to fully remediate these material weaknesses until these steps have been completed and the controls have been operating effectively for a sufficient period of time. These remediation measures may be time consuming and costly and there is no assurance that these initiatives will ultimately have the intended effects or that the actions that management may take in the future will be sufficient to remediate the control deficiencies that led to the material weaknesses in internal control over financial reporting or that they will prevent or detect potential future material weaknesses. The Company's current controls and any new controls that management develops may become inadequate because of changes in conditions in the business and weaknesses in disclosure controls and internal control over financial reporting may be discovered in the future. Any failure to develop or maintain effective controls or any difficulties encountered in their implementation or improvement could harm the operating results or cause the Company to fail to meet the reporting obligations and may result in a restatement of the Company's financial statements for prior periods.

Notwithstanding the above identified material weaknesses, management believes the Consolidated Financial Statements as included in this Quarterly Report on Form 10-Q fairly represent, in all material respects, the Company's financial condition, results of operations and cash flows as of and for the periods presented in accordance with generally accepted accounting principles in the United States.

The Company's independent registered public accounting firm is not required to attest to the effectiveness of the internal control over financial reporting until after the Company is no longer an "emerging growth company" as defined in the JOBS Act. At such time, the Company's independent registered public accounting firm may issue a report that is adverse in the event it is not satisfied with the level at which the internal control over financial reporting is documented, designed or operating. Any failure to implement and maintain effective internal control over financial reporting also could adversely affect the results of periodic management evaluations and annual independent registered public accounting firm attestation reports regarding the effectiveness of the internal control over financial reporting required to be included in Bitcoin Depot's periodic reports that are filed with the SEC. Ineffective disclosure controls and procedures and internal control over financial reporting could also cause investors to lose confidence in Bitcoin Depot's reported financial and other information, which would likely have a negative effect on the trading price of the Class A common stock. In addition, we will not be able to continue to be listed on Nasdaq, which could have an adverse effect on the liquidity of your investment.

Changes in Internal Control Over Financial Reporting

There was no change in the Company's internal control over financial reporting that occurred during the fiscal quarter ended September 30, 2025 that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting. The Company continues to work with a third party advisor to remediate the control weaknesses and strengthen the overall control environment. To that end, we have developed comprehensive control matrices for business process controls, entity level controls, and IT general controls. Thorough testing and remediation development work are ongoing.

PART II - OTHER INFORMATION

Item 1. Legal Proceedings

On January 13, 2023, Canaccord Genuity Corp. (“Canaccord”) commenced proceedings against the Company by filing a claim with the Superior Court of Justice in Toronto, Ontario which named Lux Vending, LLC and Bitcoin Depot LLC as the defendants. Canaccord is a financial services firm in Canada that the Company previously had hired to perform advisory services related to a potential initial public offering in Canada or sales transaction. The claim asserts that Lux Vending, LLC breached the contract by terminating the contract to avoid paying fees for their services and that Canaccord is entitled to \$23.0 million in damages equivalent to the fees alleged to be payable for breach of contract that would have been owed upon the closing of a transaction to acquire control, the sale of substantially all the Company’s assets, or a merger transaction pursuant to the previously terminated engagement letter for advisory services. Canaccord proposes that the amount of fees would be calculated on the total cash transaction value of the business combination of \$880.0 million. The claim also seeks an award for legal and other costs relating to the proceeding.

In 2024 Canaccord added Bitcoin Depot Operating LLC as a defendant to account for the name change following the closing of the merger. Canaccord now estimates the total transaction value could be up to \$655 million.

Bitcoin Depot does not believe the allegations made against it are valid and intends to vigorously defend against them. The range of potential loss related to the identified claim is between \$0 and \$23.0 million, the amount of damages that Canaccord is seeking in the lawsuit. The additional costs mentioned in the claim are not able to be estimated at this time. The discovery phase of the litigation involving documentary productions and oral examinations is largely completed. A mediation of the dispute was held on April 14, 2025 and the parties did not agree on a resolution to the dispute and the matter is currently awaiting scheduling for a pre-trial conference and a trial.

On February 26, 2025, Lux Vending, LLC and Bitcoin Depot Operating, LLC (the “Company”) were served with a civil complaint from the Attorney General of the State of Iowa (the “Iowa AG”) in connection with a suit filed against us by the Iowa AG, on behalf of the state of Iowa, in the Iowa District Court for Polk County. The complaint alleges that both subsidiaries violated certain provisions of the Iowa Consumer Fraud Act as a result of Bitcoin withdrawals made from our ATMs being used by our customers to make payments under a variety of fraudulent schemes. The complaint further alleges that the defendants should have known that the purpose of these withdrawals was to make payment under such schemes and that the defendants should have taken additional steps to protect its customers. The complaint is seeking a preliminary and permanent injunction against the subsidiaries from either operating in Iowa or further violating the Iowa Consumer Fraud Act as well as monetary penalties. The IA AG has not sought or been granted injunctive relief. The Company filed its Answer on April 17, 2025. The Company served its discovery requests to the IA AG and the IA AG continues to produce documents. The IA AG recently served discovery requests on the Company on October 23, 2025.

On August 5, 2025, Bitcoin Depot, Inc. (the “Company”) received notice that a class action lawsuit was filed in the U.S. District Court for the Northern District of Georgia. The complaint, brought by a Georgia resident on behalf of a proposed nationwide class and Georgia subclass, alleges that the Company failed to adequately safeguard, monitor, and protect the personally identifiable information (“PII”) of approximately 27,000 customers, which was allegedly compromised in a data breach discovered in June 2024. At that time, law enforcement requested Bitcoin Depot not publicly disclose the data breach until it completed its investigation. In July 2025, law enforcement lifted its hold and Bitcoin Depot provided notice to the potentially impacted consumers.

The complaint asserts eight causes of action, including negligence, negligence per se (based on alleged violations of FTC guidelines), invasion of privacy, breach of implied contract, unjust enrichment, breach of fiduciary duty, and violations of Georgia’s Uniform Deceptive Trade Practices Act and attorneys’ fees statute. The plaintiff seeks actual and compensatory damages, equitable and injunctive relief, credit monitoring for at least three years, restitution, disgorgement, punitive damages, attorneys’ fees, and class certification. On October 27, 2025, the Company filed a Motion to Dismiss the Plaintiff’s Complaint in its entirety on several grounds including lack of standing, failure to allege concrete harm, and lack of causation.

We are also party to various other legal proceedings and claims in the ordinary course of our business. We believe these matters will not have a material adverse effect on our consolidated financial position, results of operations or liquidity.

Item 1A. Risk Factors

For a complete discussion of the Company’s risk factors, see Part I, Item 1A, “Risk Factors” in the Company’s Annual Report on Form 10-K for the year ended December 31, 2024. Other than as set forth immediately below, there have been no material changes to Risk Factors in the Company’s Annual Report since December 31, 2024.

Litigation or investigations involving us, our agents or other contractual counterparties could result in material settlements, fines or penalties and may adversely affect our business, financial condition and results of operations.

We have been, and in the future may be, subject to allegations and complaints that individuals or entities have used our products and services for fraud-induced money transfers, as well as certain money laundering activities, which may result in fines, penalties, judgments, settlements and litigation expenses. We also are the subject from time to time of litigation related to our business. The outcome of such allegations, complaints, claims and litigation cannot be predicted.

Regulatory and judicial proceedings and potential adverse developments in connection with ongoing litigation may adversely affect our business, financial condition and results of operations. There may also be adverse publicity associated with lawsuits and investigations that could decrease third-party and consumer use and acceptance of our products and services. Additionally, our business may be the subject of class action lawsuits including securities litigation, regulatory actions and investigations and other general litigation. The outcome of class action lawsuits, including securities litigation, regulatory actions and investigations and other litigation is difficult to assess or quantify but may include substantial fines and expenses, as well as the revocation of required authorizations, registrations or licenses or the loss of approved status, which could have a material adverse effect on our business, financial position, and results of operations or users’ confidence in our business. Plaintiffs or regulatory agencies in these lawsuits, actions or investigations may seek recovery of very large or indeterminate amounts, and the magnitude of these actions may remain unknown for substantial periods of time. The cost to defend or settle future lawsuits or investigations may be significant. In addition, improper activities, lawsuits or investigations involving third parties may adversely impact our business operations or reputation even if we are not directly involved.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

None.

Item 3. Defaults upon Senior Securities.

None.

Item 4. Mine Safety Disclosures.

Not applicable.

Item 5. Other Information.

Insider Trading Arrangements and Policies

During the fiscal quarter ended September 30, 2025, none of our directors or “officers” (as such term is defined in Rule 16(a)-1(f) under the Exchange Act) adopted or terminated a “Rule 10b5-1 trading agreement” or “non-Rule 10b5-1 trading arrangement” (each as defined in Item 408(a) and (c) of Regulation S-K).

Item 6. Exhibits and Financial Statement Schedules.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned hereunto duly authorized.

Date: November 13, 2025

By: /s/ Brandon Mintz
Name: Brandon Mintz
Title: Chief Executive Officer (*Principal Executive Officer*)

Date: November 13, 2025

By: /s/ David Gray
Name: David Gray
Title: Chief Financial Officer (*Principal Financial Officer and Principal Accounting Officer*)

**CERTIFICATION OF CHIEF EXECUTIVE OFFICER
PURSUANT TO RULE 13A-14(A) UNDER THE SECURITIES EXCHANGE ACT OF 1934, AS ADOPTED PURSUANT TO SECTION 302 OF THE SARBANES-OXLEY
ACT OF 2002**

I, Brandon Mintz, certify that:

1. I have reviewed this Quarterly Report on Form 10-Q for the period ended September 30, 2025 of Bitcoin Depot Inc. (the “registrant”);
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant’s other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) [Paragraph omitted pursuant to SEC Release Nos. 33-8238/34-47986 and 33-8392/34-49313];
 - c) Evaluated the effectiveness of the registrant’s disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) Disclosed in this report any change in the registrant’s internal control over financial reporting that occurred during the registrant’s most recent fiscal quarter (the registrant’s fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant’s internal control over financial reporting; and
5. The registrant’s other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant’s auditors and the audit committee of the registrant’s board of directors (or persons performing the equivalent functions):
 - a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant’s ability to record, process, summarize and report financial information; and
 - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant’s internal control over financial reporting.

CERTIFICATION OF CHIEF FINANCIAL OFFICER

PURSUANT TO RULE 13A-14(A) UNDER THE SECURITIES EXCHANGE ACT OF 1934, AS ADOPTED PURSUANT TO SECTION 302 OF THE SARBANES-OXLEY ACT OF 2002

I, David Gray, certify that:

1. I have reviewed this Quarterly Report on Form 10-Q for the period ended September 30, 2025 of Bitcoin Depot Inc. (the “registrant”);
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant’s other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) [Paragraph omitted pursuant to SEC Release Nos. 33-8238/34-47986 and 33-8392/34-49313];
 - c) Evaluated the effectiveness of the registrant’s disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) Disclosed in this report any change in the registrant’s internal control over financial reporting that occurred during the registrant’s most recent fiscal quarter (the registrant’s fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant’s internal control over financial reporting; and
5. The registrant’s other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant’s auditors and the audit committee of the registrant’s board of directors (or persons performing the equivalent functions):
 - a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant’s ability to record, process, summarize and report financial information; and
 - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant’s internal control over financial reporting.
